

Earthdance Expands to Two Global Events in 2026!

San Francisco, California Mar 10, 2026 (IssueWire.com) - For 29 years, **Earthdance Global** has brought people together across cultures and continents in a shared intention for peace. Through music, dance, and community gatherings, Earthdance creates spaces where human connection can flourish.

At the center of this movement is our global synchronized **Prayer for Peace**. When thousands of people gather simultaneously around the world, the experience is visceral. It's a reminder that beneath our differences, we share the same pulse; the same desire for belonging, healing, and a more compassionate world.

Our September 2026 theme, *The Heart & Beat of Humanity*, reflects this shared rhythm. It honors the simple truth that peace begins within individuals, grows through connection, and is amplified when we move together. In listening to one another, and to the planet, we remember that humanity is strongest when we act in unison.

Throughout the years, Earthdance has explored themes such as Evolving Through Love; Laugh, Sing, Dance; and Vision 2020: Co-Manifestal, each one reflecting the evolving consciousness of our global community. While many synchronized gatherings now take place around the globe, Earthdance is widely recognized as the first and largest coordinated multi-location music and peace event in the world.

Our September event will be held on September 19, 2026, in alignment with the United Nations International Day of Peace, as we once again come together to align with the shared heart and beat of humanity.

March Equinox Gathering

Earthdance is now evolving to support multiple gatherings throughout the year that deepen connection and keep the global community engaged beyond a single annual moment. We are excited to announce a second celebration in 2026, our March Equinox celebration, *Ascension*. By creating seasonal experiences, Earthdance offers more opportunities for people to come together in alignment with one another and the Earth.

Our March event will be held on March 21, 2026

Equinox represents a time of balance and renewal, it provides space for reconnection, and forward movement. If you would like to host a March Equinox event in alignment with Earthdance and join us in amplifying the collective field of intention, you may register here:
