Pune, Maharashtra May 8, 2026 ([IssueWire.com](https://www.IssueWire.com)) - SAP online training institute [ERPVITS](#), trusted by over 2,000 certified professionals across the globe, has announced the expansion of its flagship SAP CPI Training program.

Most businesses are migrating to SAP S/4HANA and hybrid cloud technologies, and with that positive trend, there is a growing need for SAP Cloud Platform Integration (CPI) consultants. With that in mind, ERPVITS has developed a 45-50 hour program that covers everything from basic integration to real-life implementation of enterprise integration. This course is aimed to prepare SAP CPI consultants to address this critical skill gap, and is aligned with the C_CPI_14 certification exam.

Regarding the SAP CPI Course

The Training offered by ERPVITS for SAP CPI is conducted by integration consultants who are certified and have over 10 years of experience with SAP landscapes. This course includes all aspects of the SAP Integration Suite and teaches the participants how to do iFlow design and adapter configurations including SAP and OData Rest and SFTP IDoc AS2/AS4 JMS and other integrations. You will learn message mapping and Groovy scripting as well as how to do OAuth security and exception handling. You will also learn how to do monitoring in real time.

Students are provided with a SAP CPI tenant to do the lab work and provided the ability to work on three (3) integration projects and forty five (45) guided integration projects to practice. Students will also be given the opportunity to work on projects for Fortune 500 client implementations which will include enterprise hybrid integration, API management hubs, and B2B/EDI processing.

Program Highlights

- 30-35 hours of live training taught by instructors with weekday and weekend sessions.
- 45+ hands-on lab training by using the major adapters, integration patterns, and error patterns.
- Real-world capstone project based on an actual consulting project with global enterprises.
- SAP CPI Certification bootcamp, study guides, and mock exam.
- Personalized mentoring and mentoring with batch sizes of 8-10 participants.
- There are mock technical interviews, resume coaching, and direct job referrals to top SAP consulting firms.
- Access to recordings of all live sessions.
- 6 months of post-training support from instructors.

Career Outlook and Salary Estimates

Candidates of the ERPVITS [SAP CPI course](#) have gotten job offers from Tier 1 consulting firms, including Fortune 500 companies like Accenture, Deloitte, Capgemini, Infosys, Wipro, TCS, and HCL Tech. Salary benchmarks in the industry for roles of varying responsibilities and experience level, are positioned between ₹8.5 LPA to ₹16 LPA in India and \$115,000 to \$200,000+ in the USA for certified SAP CPI positions. Komal Ahuja, an SAP CPI Consultant at Deloitte and an ERPVITS alumna, said, "Excellent integration training with actual cloud project experience. I secured an integration position at Deloitte within 9 weeks, where I was in charge of managing CPI implementations."

With a reported training success rate of 98%, and average job placement time of 3 months, ERPVITS is the leading SAP CPI training provider for IT professionals across India, the US, the UK, the UAE, and more.

New Batches — In April 2026

For those who prefer more flexibility, we offer a self-paced learning option, which includes lifetime access to session recordings.
