

Excellence Janitorial Services Is Now Helping Luzerne County Neighbors Clear their Junk

Kingston, Pennsylvania Mar 3, 2026 ([Issuewire.com](https://www.issuewire.com)) - For years, [Excellence Janitorial Services](#) has been known for keeping local offices and businesses spotless. Now, for the first time, the company is expanding to help homeowners in Luzerne County, too. The team is officially launching a new [Junk Removal service](#) designed to make cleaning up easier and more affordable for everyone.

"We know how easy it is to let things pile up," says Jorge, owner of Excellence Janitorial Services. "You look at a pile of junk in the garage or the backyard and say, 'I'll handle it later.' But later never comes because people are afraid it's going to cost thousands of dollars. We want to fix that. We want to show our neighbors that getting rid of that stress is actually very affordable."

This new service isn't just for commercial properties; it is open to residential customers as well. To make things as simple as possible, the company is offering two different ways to help:

- **The "Done For You" Option**

This is for people who just want the problem gone. The team stops by to take a look at what needs to go and gives a clear estimate. If you give them the "go ahead," they handle all the heavy lifting and hauling

right then and there.

- **The "Do It Yourself" Option**

For those who need more time to sort through things—like during a home cleanout or renovation—Excellence Janitorial Services will drop off a dumpster at your location. You fill it up at your own pace, and when you're ready, the team comes back to haul it away.

"Whether you are a business with old office furniture or a homeowner finally clearing out the basement, we can help you get it done." adds Jorge.

ABOUT EXCELLENCE JANITORIAL SERVICES:

Excellence Janitorial Services is a family-owned [commercial cleaning business](#) born out of a simple desire: to do a better job. Founded by Jorge after seeing how other companies rushed through cleaning jobs, the business was built on the belief that "rock-solid attention to detail" matters.

Based in [Kingston, PA](#), they serve neighbors across Scranton, Pittston, Nanticoke, Wilkes-Barre, and the entire Luzerne County area. Whether they are cleaning a medical office, a warehouse, or now clearing out a residential garage, their goal remains the same: to take the burden of cleaning off your shoulders so you can focus on your business and your family.
