

Fupeng Environmental Protection Will Participate In The 2026 Asia Water Expo

Fupeng Environmental Protection will demonstrate its expertise as an industry leader at booth F711 in Hall 7.

Kuala Lumpur, Malaysia Mar 1, 2026 ([IssueWire.com](http://www.IssueWire.com)) - In the face of increasingly urgent global water resource challenges, the exchange and collaboration of advanced technologies within the industry are essential. Asia Water 2026, a highly influential professional exhibition in Asia, will take place from 7 to 9 April 2026 in Kuala Lumpur, the capital of Malaysia and a key hub in Southeast Asia. This major event will provide a valuable platform for exchange within the global water industry. Hebei Fupeng Environmental Protection Technology Group Co., Ltd. will demonstrate its expertise as an industry leader at booth F711 in Hall 7. We sincerely invite partners from all sectors to visit our booth in Kuala Lumpur, Malaysia, to explore the future of sustainable water resource management.

The selection of Kuala Lumpur, Malaysia, as the venue for ASIA WATER 2026 highlights the region's strategic importance in the market and innovation. For Fupeng, with over two decades of industry experience, this exhibition is an excellent opportunity to showcase its global professional capabilities. As a global company providing comprehensive water treatment solutions and equipment, Fupeng looks forward to meeting experts and customers from around the world in Kuala Lumpur to share insights. Asia Water 2026 is not only a showcase but also an important bridge for Fupeng to deepen international cooperation and serve both the Malaysian and wider Asian markets.

At Asia Water 2026, Fupeng will systematically present its products and services:

Firstly, under "Products and Systems," the company will showcase a comprehensive range of advanced equipment, including reverse osmosis (RO), [ultrafiltration](#) (UF), and [nanofiltration systems](#), as well as wastewater treatment plant equipment, multi-media filters, dissolved air flotation machines, and ultraviolet sterilizers.

Secondly, the company offers a broad "Business Scope," encompassing process design, engineering design, equipment manufacturing, and installation in the fields of wastewater, pure water, industrial circulating water treatment, and river, water body, and mine remediation. In addition, Fupeng provides professional "customised solutions" for complex requirements such as seawater desalination and brackish water purification. This spring in Kuala Lumpur, Malaysia, Fupeng will vividly demonstrate how to address diverse water treatment challenges through technological innovation at Asia Water 2026, leveraging its more than 23 years of extensive experience and excellent reputation.

We cordially invite you to join us in vibrant Kuala Lumpur, Malaysia, in the spring of 2026 for the annual industry event – Asia Water Expo 2026. Visit us at booth F711 in Hall 7 to learn more about Fupeng's comprehensive capabilities and customized services. Let's join hands with Fupeng at Asia Water Expo in Kuala Lumpur to discuss collaboration, protect precious water resources with the power of technology, and create a clear and sustainable future together.
