

## G&H Construction Named April Business of the Month by Rockport-Fulton Chamber of Commerce

G&H Construction, a family-owned custom home builder with 30+ years serving the Coastal Bend region, has been nominated as the Rockport-Fulton Chamber of Commerce April Business of the Month.

**Rockport, Texas Apr 1, 2026 ([IssueWire.com](http://IssueWire.com))** - G&H Construction, a family-owned general contracting and custom home building company serving Rockport and the Coastal Bend region of Texas, has been named the April Business of the Month by the Rockport-Fulton Chamber of Commerce. The recognition will be celebrated at a dedicated event on Thursday, April 2, 2026, at 9:30 AM to 10:00 AM CDT at the Rockport-Fulton Chamber of Commerce and Visitor Center, located at 319 Broadway Street in Rockport, Texas.

The Business of the Month designation is awarded by the Rockport-Fulton Chamber of Commerce to recognize local businesses that demonstrate consistent excellence, community involvement, and a strong commitment to serving the region. For G&H Construction, the recognition reflects more than three decades of building and renovating homes and commercial properties across Rockport and the surrounding Coastal Bend area.

Founded and led by Owner Rocky Gudim, G&H Construction has spent 30 or more years establishing itself as one of the most trusted names in construction along the Texas Gulf Coast. As a family-owned business, the company brings a personal investment to every project it takes on, treating each client's home or property with the same care and attention it would give its own.

"Being recognized by the Rockport-Fulton Chamber of Commerce means a great deal to our team," said Rocky Gudim, Owner of G&H Construction. "We have been part of this community for over 30 years, and this recognition is a reflection of the relationships we have built and the work we have put into every project along the way. We are honored and grateful."

G&H Construction offers a comprehensive range of residential and commercial services, including full

home renovation, indoor and outdoor kitchen construction, bathroom remodeling, home additions, window installation, roofing, water damage repair, structural repair, and design services. This full-service capability allows the company to serve as a single point of contact for property owners across the Coastal Bend, from smaller repair and renovation projects to large-scale custom builds.

The company's 30-plus years of experience in the Coastal Bend region gives it a deep familiarity with the unique construction challenges that come with building and maintaining properties along the Texas Gulf Coast. From hurricane-resistant structural work to water damage restoration following storm events, G&H Construction has the experience and resources to handle the demands that coastal property ownership places on homes and businesses in the region.

As a family-owned business, G&H Construction operates with a level of personal accountability that larger corporate contractors often cannot match. Every project reflects the company's long-standing commitment to quality craftsmanship, honest communication, and results that stand up over time in one of the most demanding climates in the state.

"Thirty years in this business along the Texas Coast teaches you a lot about what it takes to build something that truly lasts," Gudim said. "We take pride in every project we complete, and we take seriously the trust that homeowners and business owners place in us when they invite us onto their property."

The Chamber of Commerce celebration on April 2nd offers the Rockport-Fulton community an opportunity to recognize G&H Construction and the role the company has played in shaping the built environment of the Coastal Bend region over the past three decades. The public is welcome to join the event at the Rockport-Fulton Chamber of Commerce and Visitor Center at 319 Broadway Street.

Property owners in Rockport and throughout the Coastal Bend region looking to connect with G&H Construction can learn more about their services or schedule a consultation by visiting [ghconstructiongroup.com](http://ghconstructiongroup.com) or calling (361) 765-1506.
