

Inter Commerce Launches Open Horizon: An All-in-One Path to Panama Relocation and Global Tax Savings

Inter Commerce Consulting's Open Horizon program provides a comprehensive, all-in-one roadmap for Panama residency, 0% tax on foreign-sourced income, and seamless business expansion through strategic Free Trade Zone integration.

INTER COMMERCE CONSULTING

YOUR BUSINESS BEYOND BORDERS

Panama, Panama Mar 25, 2026 ([IssueWire.com](https://www.IssueWire.com)) - Inter Commerce Consulting, a leader in international trade and strategic business advisory, is proud to announce the official launch of its flagship program, Open Horizon. Designed to eliminate the legal, logistical, and financial hurdles of

moving abroad, Open Horizon provides a comprehensive roadmap for entrepreneurs, digital nomads, and retirees seeking to capitalize on Panama's world-class tax benefits and strategic geographical position.

As global mobility becomes a priority for high-net-worth individuals and scalable businesses, the complexity of international immigration often leads to costly mistakes. Open Horizon was developed to solve these challenges by offering a "boots-on-the-ground" partnership that manages everything from visa processing and real estate to complex corporate structuring within Panama's Free Trade Zones.

"Most people looking to relocate to Panama are met with a fragmented landscape of lawyers, realtors, and consultants who don't always have the client's best interest at heart," said Simon Girard, CEO of Inter Commerce Consulting. "With Open Horizon, we have built a vetted ecosystem that protects our clients from document expiry traps and hidden legal fees. We aren't just moving people; we are helping them optimize their wealth and lifestyle for the long term."

The Open Horizon Advantage

The program is built on three core pillars designed to provide total peace of mind:

Residency & Legal Security: Open Horizon fast-tracks the most popular residency paths, including the Panama Friendly Nations Visa, the Pensionado (Retiree) Visa, and the Digital Nomad Visa. The program includes bilingual legal support and rigorous document oversight to ensure that critical paperwork—such as criminal record checks and translations—never falls through the cracks.

Tax & Wealth Strategy: Panama offers a unique territorial tax system where foreign-sourced income is taxed at 0%. Open Horizon guides clients through the process of obtaining tax residency and structuring personal or corporate finances to maximize these benefits legally and efficiently.

Business Expansion & Logistics: Beyond personal relocation, the program leverages Inter Commerce Consulting's deep expertise in global trade. Clients gain access to Panama's Free Trade Zones, such as the Colon Free Zone and Panama Pacifico, enabling businesses to operate with 0% corporate tax on re-exports while optimizing their global supply chains.

The Open Horizon program also includes localized "settling-in" services, such as neighborhood selection in Panama City or the highlands of Boquete, healthcare navigation, and local banking setup. By providing a single point of contact for both personal and professional needs, Inter Commerce Consulting ensures a smooth transition to one of the world's most vibrant and tax-efficient economies.
