Sacramento, California Mar 13, 2026 (Issuewire.com) - Lance Casey & Associates has been named the [2026 winner of the License Plate Lookup Service Excellence Award](#) by the Business Achievement Awards program.

The award recognizes companies that provide reliable and professional license plate lookup services that help clients identify vehicle ownership information when there is a legitimate investigative or legal reason to obtain that information.

License plate lookup services are often used in situations involving investigations, insurance matters, and incidents where identifying the registered owner of a vehicle is important.

Lance Casey & Associates provides investigative research services designed to help clients obtain information connected to vehicles, individuals, and public records. These services support professionals and individuals who need reliable information for investigative purposes.

The Business Achievement Awards program recognizes companies across many industries that demonstrate service quality, reliability, and value within their field.

As part of the Investigation & Vehicle Data Awards category, the **License Plate Lookup Service Excellence Award** highlights businesses that provide useful investigative tools and vehicle ownership research services.

Lance Casey & Associates was selected based on service reliability, investigative experience, and the value the company provides to clients seeking license plate lookup services.

The company provides several investigative research services including license plate lookup services, people search and skip tracing, reverse phone lookup, reverse email lookup, reverse address lookup, and other investigative database research.

These services are often used by individuals, businesses, investigators, and legal professionals who need reliable information connected to vehicles or individuals.
