Sacramento, California Mar 15, 2026 (IssueWire.com) - [License plate lookup](#) services are the cornerstone of Lance Casey & Associates, a nationally recognized private investigation firm that has been awarded the [License Plate Lookup Service Excellence Award](#) by the Business Achievement Awards in the Investigation and Vehicle Data category. The award recognizes the firm's commitment to

delivering accurate, reliable license plate lookup services that help individuals, attorneys, and businesses locate critical vehicle registration information nationwide.

"A license plate lookup is often the first step in solving a case or recovering damages," said Lance Casey, owner of Lance Casey & Associates and a licensed California private investigator. "One of our clients was involved in a hit and run accident. She had the at-fault driver's license plate number, so she ordered a license plate lookup from our firm. We provided her with the registered owner's name and address within hours. With that information, she was able to file a small claims lawsuit against the registered owner and recover the full damages to her vehicle. That's the real-world impact of a quality vehicle registration lookup service."

The license plate lookup service at Lance Casey & Associates combines decades of investigative expertise with modern search technology. Whether you need a plate search for legal proceedings, personal security, or business purposes, the service delivers the registered owner's name and address quickly and accurately. Beyond license plate searches, Lance Casey & Associates offers reverse phone lookup, reverse email search, reverse PO box search, reverse address lookup, and people search services.

Lance Casey brings exceptional credentials to the field. He holds a bachelor's degree in criminal justice, boasts over 25 years of investigative experience, maintains over 200,000 followers across [social media platforms](#), and has provided court testimony over one hundred times in cases stemming from his work as both a police officer and private investigator. His California PI License is #27617.

"This award validates what our clients already know—that a reliable license plate lookup can be the difference between getting justice and being left without answers," Casey added. "We're proud to serve investigators, attorneys, and individuals across the country with trustworthy vehicle data services."
