MentorLeap Bets Big on AI, Empowers 3,628 Professionals at Launch

Award-winning journalist launches AI-powered professional development platform with flagship Speak with Impact bootcamp March 28-29

Mumbai, Maharashtra Mar 24, 2026 (Issuewire.com**)** - WITH A HUGELY SUCCESSFUL LAUNCH EVENT ON 15 MARCH 2026, MENTORLEAP DID NOT QUIETLY ENTER THE PROFESSIONAL DEVELOPMENT SPACE. IT ARRIVED WITH A STATEMENT. A RECORD 3,628 PROFESSIONALS REGISTERED FOR AND ATTENDED THE PLATFORM'S FREE PERSONALITY DEVELOPMENT PROGRAMME ON ITS VERY FIRST DAY, SIGNALLING AN UNMISTAKABLE HUNGER FOR AI-POWERED, HIGH-IMPACT LEARNING THAT GOES BEYOND PASSIVE WEBINARS AND GENERIC ONLINE COURSES.

Founded by award winning journalist, Chevening Scholar and communication coach Mridu Bhandari, MentorLeap is built on a simple but powerful belief: that talent without visibility is opportunity lost. The platform is designed to close that gap — equipping professionals across India with the communication skills, leadership presence and personal brand clarity they need to thrive in today's competitive environment.

SPEAK WITH IMPACT: MENTORLEAP'S FLAGSHIP LIVE BOOTCAMP

MentorLeap's first signature live event, the Speak with Impact Bootcamp (28–29 March 2026), is a two-day intensive programme designed for professionals who are ready to stop being overlooked and start owning every room they walk into. Across two focused days, participants develop the ability to communicate with authority, structure compelling narratives and project a leadership presence that commands genuine attention — in meetings, on stage and on camera.

In a unique statement of its founding values, MentorLeap is offering 10 lucky participants full access to the bootcamp at no cost — reinforcing its commitment to making transformative learning genuinely accessible, not just aspirationally so. The bootcamp is open to professionals across industries and experience levels, with all sessions delivered live online.

MEET MISHA: MENTORLEAP'S INTELLIGENT AI-POWERED MENTOR

At the intellectual core of every MentorLeap programme is MISHA — the platform's Intelligent AI-powered Mentor. MISHA is not a generic chatbot. She is a multi-dimensional mentorship intelligence built around MentorLeap's five-part leadership philosophy, designed to support professionals at every stage of their growth journey — from building foundational communication skills to navigating complex leadership challenges.

THE MISHA FRAMEWORK:

M - Master your narrative
Own your story and shape how the world sees you.

I - Increase your visibility
Build a presence that gets you noticed and remembered.

S - Strengthen your voice
Communicate with clarity, authority and authentic confidence.

H - Humanise your leadership
Lead with empathy, connection and emotional intelligence.

A - Accelerate your growth
Apply structured learning to real-world career acceleration.

Each pillar of the MISHA framework translates directly into lived learning experiences — not just theory to be absorbed, but skills to be practised, refined and embodied. Early MentorLeap participants have described MISHA as the first learning model they have encountered that treats them as whole professionals, not just skill-sets to be optimised.

THE VISION BEHIND MENTORLEAP: MRIDU BHANDARI

MentorLeap is the creation of Mridu Bhandari — a Ramnath Goenka award winning journalist, a Chevening Scholar and communication coach whose career uniquely prepared her to build this platform. Having spent over 2 decades in TV journalism where clarity, precision and authentic voice are non-negotiable professional standards, Mridu brings a rare practitioner's rigour to every MentorLeap curriculum she designs and delivers.

"MentorLeap's vision is clear — to empower every individual with the skills, confidence and visibility they need to thrive in an ever-evolving world." — Mridu Bhandari, Founder, MentorLeap

THE MENTORLEAP LEARNING ECOSYSTEM

Beyond the bootcamp, MentorLeap offers a comprehensive ecosystem of learning experiences — each designed to meet professionals wherever they are in their growth journey:

Live Bootcamps, Masterclasses & Cohorts
Live online bootcamps, masterclasses and cohorts for deep skill transformation and career growth.

Executive Coaching
One-on-one sessions for senior professionals seeking strategic communication development.

Recorded Courses & Digital Resources
Digital cheatsheets, audio tips and videos structured around the MISHA framework to accelerate your career.

MentorLeap Studio
A creative content hub for thought leadership, speaker training and media presence building.

Corporate Training
Bespoke online and offline programmes bringing the MentorLeap methodology to entire teams.

MISHA AI Platform
24/7 AI-guided mentorship with personalised feedback and adaptive learning journeys.

MentorLeap's launch is not simply a business milestone — it is a signal that the market is ready for a new kind of professional development platform. One that combines the warmth of mentorship with the precision of AI, the depth of live learning with the convenience of on-demand access and the accessibility of free programmes with the rigour of premium executive coaching.

With MISHA powering every learning journey, a flagship bootcamp already generating significant demand and a founder whose credibility is built on decades of real-world communication mastery — MentorLeap is positioned to become one of India's defining names in professional development. For professionals ready to invest in the skills that genuinely move the needle, MentorLeap is the partner built for exactly that journey.
