

## New Book Exposes the Hidden Alliance That Changed History

The 9/11 War: Inside the Secret Alliance Between Al-Qaeda and Iran by Liam Conrad

**Los Angeles, California Mar 28, 2026** ([IssueWire.com](http://IssueWire.com)) - Dex System, an imprint of AM I AM Publishing, announces the release of *The 9/11 War: Inside the Secret Alliance Between Al-Qaeda and Iran* by Liam Conrad, now available in ebook, print, and audio formats.

For decades, the deadliest terrorist attack in American history has been defined by a single narrative —

nineteen hijackers, one radical organization, and a catastrophic failure of intelligence. But what if the full story has never been told? In *The 9/11 War*, investigative writer Liam Conrad digs beneath the official record to uncover a clandestine alliance between Al-Qaeda and the Islamic Republic of Iran — a relationship that intelligence agencies tracked, documented, and ultimately downplayed in the years before and after September 11, 2001.

Drawing on declassified documents, court filings, and a meticulous reconstruction of covert operations across the Middle East, Conrad reveals how Sunni and Shia extremists — long assumed to be implacable enemies — forged a tactical partnership rooted in shared strategic objectives. The result is a geopolitical thriller grounded in documented reality, and a challenge to twenty-five years of conventional wisdom about the War on Terror.

#### KEY THEMES AND REVELATIONS INCLUDE:

- The covert channels linking Al-Qaeda operatives to Iranian intelligence and the IRGC before 9/11
- How the alliance survived internal ideological tensions to serve both parties' anti-American agenda
- The intelligence community's awareness — and suppression — of evidence pointing to Iranian complicity
- The ongoing geopolitical consequences of the 9/11 alliance in today's Middle East
- What the secret record reveals about the future of state-sponsored terrorism

"The 9/11 War is essential reading for anyone who believes the full truth of that day has yet to be written," said a spokesperson for AM I AM Publishing. "Liam Conrad has produced a landmark work of narrative nonfiction — meticulously sourced, compulsively readable, and deeply unsettling in its implications."

Published under the Dex System imprint, *The 9/11 War* is available now across all major platforms at a special launch price of \$0.99 for the ebook edition, \$6.99 for print, and \$0.99 for the audiobook.
