

Paramount Renovations Helps Knoxville Homeowners Plan Summer Outdoor Kitchen Projects

Family-owned contractor specializes in outdoor kitchens, patios, and hardscape construction extending living spaces across East Tennessee.

Knoxville, Tennessee Mar 24, 2026 ([Issuewire.com](https://www.issuewire.com)) - Paramount Renovations, a trusted hardscape and masonry contractor serving the Knoxville area, announces its focus on outdoor kitchen projects as homeowners prepare to maximize outdoor entertaining spaces for summer. Specializing in outdoor kitchens, patios, decks, retaining walls, concrete work, and masonry services, the family-owned business emphasizes that professionally designed outdoor kitchens transform properties into year-round entertainment destinations.

Founded by Julio, Paramount Renovations has established itself as a reliable partner for homeowners seeking professional hardscape and outdoor construction services throughout Knoxville and surrounding areas in East Tennessee.

"Outdoor kitchens have become one of the most popular projects we do," said Julio, owner of Paramount Renovations. "Knoxville families want to entertain outside, and outdoor kitchens make that so much better than just a grill on the patio. We help homeowners create complete outdoor cooking and entertainment spaces with everything from built-in grills and countertops to refrigerators, sinks, and seating areas."

Paramount Renovations specializes in comprehensive outdoor kitchen construction that extends home living spaces outdoors. Services include custom outdoor kitchen design and layout, built-in grill installations, outdoor countertops and prep surfaces, outdoor refrigeration and storage, sink and plumbing installations, outdoor lighting and electrical, and integration with patios and entertainment areas.

As a family-owned business, Paramount Renovations operates with personalized service and commitment to quality craftsmanship. Julio brings a customer-focused approach to outdoor kitchen

projects, recognizing that these improvements represent significant investments enhancing both lifestyle and property value.

"Our customer-focused philosophy means we listen to how you want to use your outdoor space," Julio explained. "Some families want simple grilling setups. Others envision complete outdoor kitchens where they can prepare entire meals outside. We design and build outdoor kitchens that match your entertaining style and cooking preferences."

Outdoor kitchen projects range from basic installations with built-in grills and countertops to comprehensive cooking centers featuring multiple cooking surfaces, refrigerators, ice makers, sinks, storage cabinets, and bar seating. Paramount Renovations works with homeowners to determine appropriate scope and features for their needs and budgets.

Popular outdoor kitchen features include built-in gas or charcoal grills, side burners for sauces and sides, outdoor refrigerators and beverage coolers, countertops in granite, concrete, or tile, storage cabinets resistant to weather, outdoor sinks with running water, pizza ovens and smokers, and covered structures providing shade and weather protection.

Outdoor kitchens integrate with broader outdoor living spaces including patios providing foundation for cooking areas, decks elevating outdoor entertainment zones, pergolas offering shade over dining areas, retaining walls creating terraced entertaining spaces, and landscaping completing outdoor aesthetics.

Paramount Renovations' experience with hardscape and masonry ensures outdoor kitchens are built with materials that withstand Tennessee weather. Proper drainage, weather-resistant materials, appropriate electrical and plumbing installations, and structural integrity ensure outdoor kitchens perform reliably for years.

Summer timing allows outdoor kitchen projects to be completed for immediate enjoyment throughout the season. Paramount Renovations works efficiently to minimize disruption while maintaining quality craftsmanship throughout construction.

The company serves homeowners throughout Knoxville and surrounding East Tennessee areas, bringing consistent quality and customer-focused service to outdoor living projects across the region. Paramount Renovations' expertise in hardscape construction ensures outdoor kitchens integrate seamlessly with broader outdoor spaces.

Julio emphasizes that successful outdoor kitchen projects begin with understanding how families entertain and cook. Simple grilling enthusiasts need different setups than families who prepare complete meals outdoors. Paramount Renovations' consultative approach matches outdoor kitchen designs to actual use patterns.
