

Peace Packaging Expands Its Wholesale Packaging Supplies Range Across UK with Sustainable, High-Performance Solutions

Bootle-based packaging specialist introduces comprehensive product lines, including paper containers, polypropylene lids, and heavy-duty clear sacks, as demand for reliable wholesale packaging supplies in the UK continues to grow.

Bootle, England Mar 27, 2026 ([IssueWire.com](https://www.IssueWire.com)) - Peace Packaging Limited, one of the UK's most trusted names in [wholesale packaging supplies](#), has announced the expansion of its core product range to better serve businesses across the food service, catering, and waste management sectors. With over 25 years of industry experience and a growing network of clients spanning the length and breadth of the country, the company is reinforcing its commitment to providing ethically sourced, high-quality packaging solutions that help businesses operate efficiently and sustainably.

As UK businesses face mounting pressure to balance operational costs with environmental responsibility, Peace Packaging has responded by deepening its catalogue of everyday essentials, from food-grade paper containers and complementary polypropylene lids to [heavy-duty clear refuse sacks](#), all available in bulk, wholesale quantities designed to deliver real value.

Meeting the Demand for Quality Wholesale Packaging Supplies in the UK

The UK packaging market has never been more competitive or more complex. Food service operators, wholesalers, caterers, and facilities managers are all seeking packaging partners they can rely on; suppliers who deliver consistent quality, competitive pricing, and the kind of broad product range that eliminates the need to juggle multiple vendors. Peace Packaging has built its reputation on exactly that promise.

"We started with a simple goal: to give UK businesses packaging they can depend on," said a spokesperson for Peace Packaging. "Over the past 25 years, we have grown that commitment into a complete, end-to-end solution that covers everything from catering disposables to waste management supplies. Our latest product expansions are a direct response to what our customers are asking for."

Spotlight on Key Products Now Available in Bulk

Among the standout additions and bestsellers now prominently featured in the [Peace Packaging wholesale range](#) are several products purpose-built for the demands of commercial environments.

The **Clear Sacks (18x29x39" / 455x735x990mm), available in boxes of 200**, are a heavy-duty solution for waste collection and management in commercial, hospitality, and industrial settings. Manufactured to robust specifications, these clear refuse sacks allow for easy visual inspection of contents, a practical requirement for colour-coded waste systems, recycling compliance, and general facilities management. Buying in boxes of 200 ensures that busy operations always have adequate stock on hand without the premium cost of frequent small purchases.

For food service businesses, the [7oz Paper Containers \(box of 1000\)](#) represent a versatile, eco-conscious choice for hot and cold food serving. Constructed from food-grade paperboard, these containers are suitable for soups, snacks, sides, and a wide range of catering applications. Their compatibility with the matching 7oz PP Lid (box of 1000) makes them a complete, professional serving solution, ideal for takeaways, cafés, market stalls, event caterers, and school canteens alike. The polypropylene lids provide a secure, leak-resistant seal that keeps food fresh and presentations clean during transit and service.

For businesses that require slightly greater capacity, the [8oz Paper Containers \(box of 1000\)](#) offer the same food-safe, sustainable construction in a larger format, perfect for generous portion sizes without compromising on presentation. Paired with the 8-12oz PP Lid (box of 500), which is also compatible with the 12oz Paper Containers (box of 500), these products form a scalable, mix-and-match system that caters to the full spectrum of modern food service operations. Whether serving espresso-style portions or hearty lunch servings, businesses can source every element of their container and lid system from a single trusted supplier.

All paper containers in the range reflect Peace Packaging's ongoing commitment to environmentally responsible sourcing, offering businesses a greener alternative to purely plastic disposables without sacrificing the durability and practicality that commercial catering demands.

Why UK Businesses Choose Peace Packaging

What sets Peace Packaging apart in the crowded wholesale packaging supplies market in the UK is not simply the breadth of its catalogue, but the depth of its customer relationships. The company works across multiple sectors — food service, wholesale distribution, retail, facilities management, and more, and its team brings genuine category expertise to every enquiry.

Free delivery is available on all orders over £99 + VAT, making bulk purchasing even more cost-effective for businesses looking to manage their packaging spend efficiently. Standard delivery starts from just £6.95, ensuring that even smaller or more urgent orders can be fulfilled without excessive shipping costs.

Beyond logistics, Peace Packaging places considerable emphasis on ethical sourcing. Every product in the range, from kraft paper cups to polythene carrier bags and food containers, is selected with sustainability in mind, giving businesses the confidence that their packaging choices align with both regulatory requirements and the growing expectations of environmentally conscious consumers.

A Trusted Partner for the Long Term

Founded more than two and a half decades ago, Peace Packaging has weathered the full range of market challenges, from supply chain disruptions to shifting consumer attitudes toward single-use plastics, by staying close to its customers and adapting its range accordingly. Today, the company serves clients across the UK from its base in Bootle, Merseyside, with UK-wide delivery ensuring that businesses from Cornwall to the Scottish Highlands can access the same high standard of wholesale packaging supplies.

With a massive and growing product range, a track record built over 25 years, and a clear mission to make sustainable packaging accessible and affordable for businesses of every size, Peace Packaging continues to set the standard for what wholesale packaging supply in the UK can and should look like.
