

Professional Napper (PRONAP) Introduces the “CEO of Sleep” Concept on Solana

Professional Nappers Club Launches PRONAP on Solana, Introducing Meme Coin Culture

Vancouver, Washington Mar 30, 2026 ([IssueWire.com](https://www.issuewire.com)) - A new meme coin project, **Professional Napper (PRONAP)**, has launched on the Solana blockchain, introducing a concept it refers to as the “**CEO of Sleep**” - a character built around stillness in an otherwise fast-moving market environment.

In a space often defined by constant updates, rapid reactions, and continuous monitoring, PRONAP presents an alternative framing: a participant who does not react at all.

A Different Kind of Market Participant

According to the project’s concept, the “**CEO of Sleep**” is not an active trader, strategist, or analyst.

It is a sloth.

And it does not respond to volatility, breaking updates, or sudden shifts in attention.

Instead, it remains still.

This character is used to represent a broader idea — that not all participation in digital asset ecosystems needs to be constant or reactive.

Concept Through Contrast

PRONAP's identity is built visually and culturally through contrast:

- High-activity environments vs a motionless central figure
- Urgent information vs no response
- Continuous updates vs complete stillness

Rather than explaining this approach through technical mechanisms, the project communicates it through imagery and recurring themes centered on the sloth figure.

Technical Overview

- **Blockchain:** Solana
- **Token Name:** PRONAP
- **Total Supply:** 1,000,000,000 (1B)
- **Transaction Tax:** 0%
- **Liquidity:** Reported as burned

The project operates within Solana's ecosystem, utilizing its speed and cost efficiency.

Community Expression

PRONAP's community reflects the same concept in its content — often depicting fast-moving or chaotic scenarios where the central character remains unaffected.

The “**CEO of Sleep**” is not positioned as guidance or strategy, but as a recurring narrative device.

Availability

Professional Napper (PRONAP) is currently accessible through decentralized platforms within the Solana ecosystem. Additional information is available through official channels:
