

RhythmFlows Solutions Pvt Ltd Partners with Fidel Softech to Deliver Integrated Enterprise Technology Solutions

Strategic collaboration to enable AI-driven financial automation and digital transformation across BFSI, manufacturing, and services sectors

RhythmFlows

Pune, Maharashtra Mar 31, 2026 ([IssueWire.com](https://www.IssueWire.com)) - RhythmFlows Solutions Pvt Ltd, a Pune-based enterprise software company, has entered into a strategic partnership with Fidel Softech Ltd, a global system integration and digital transformation organization, to deliver comprehensive technology solutions for enterprises.

This collaboration is designed to combine RhythmFlows' advanced product capabilities with Fidel Softech's expertise in system integration and enterprise solution deployment. Through this partnership, organizations will be able to adopt scalable and efficient digital systems that streamline operations and improve business performance.

As part of the agreement, RhythmFlows will provide its flagship platform, RhythmWorks, a configurable and AI-enabled system that supports financial automation, reconciliation, and enterprise workflow management. Fidel Softech will act as the preferred implementation partner, ensuring seamless deployment, customization, and integration with existing enterprise systems.

The partnership aims to address key operational challenges faced by enterprises, including complex financial reconciliation, payment processing inefficiencies, and a lack of workflow automation. By leveraging the strengths of both companies, clients can achieve improved accuracy, reduced manual intervention, and enhanced operational control.

Industry sectors such as banking, financial services, manufacturing, and enterprise services are expected to benefit significantly from this collaboration. The focus will be on delivering scalable solutions that enable faster decision-making, improved compliance, and better financial visibility.

According to company representatives, this alliance will also support joint go-to-market initiatives and help expand the reach of both organizations across domestic and international markets.
