

Sandra Rodriguez, MD, ABOM: A Compassionate Leader in Gastroenterology, Hepatology, and Obesity Medicine.

Bringing Expertise and a Personal Touch to patients in Miami & Homestead, Florida

Homestead, Florida Mar 4, 2026 ([IssueWire.com](https://www.IssueWire.com)) - Dr. Sandra Rodriguez is a board-certified clinician with a sharp academic foundation. She approaches medicine with both analytical rigor and emotional intelligence. Her expertise in gastrointestinal disease reflects not only technical mastery but also a commitment to thoughtful, evidence-based decision-making. Whether managing complex inflammatory bowel disease or evaluating acute upper GI bleeding, she brings clarity and confidence to challenging clinical situations.

Dr. Sandra Rodriguez is not only a highly skilled physician — she is also the founder of her own private practice, DLW Gastro, built on a vision of patient advocacy and clinical excellence. In an era of corporate healthcare, Dr. Rodriguez chose a different path: independence. By establishing her own practice, she created a setting where patient care is thoughtful, unhurried, and rooted in evidence-based decision-making. Every protocol, process, and patient interaction reflects her standards.

Dr. Rodriguez was born in Havana, Cuba, and emigrated to the United States with her family at the age of 14. This journey has instilled in her a deep appreciation for diverse cultures and the importance of understanding her patients' unique backgrounds. After completing her undergraduate degree at Florida International University in Miami, she pursued her Doctor of Medicine at Ross University School of Medicine in Barbados.

Continuing her medical education, Dr. Rodriguez completed her internal medicine and gastroenterology residency at the renowned Cleveland Clinic in Weston, Florida. She later honed her expertise in hepatology during her fellowship at Rutgers New Jersey Medical School in Newark. This extensive training has equipped her with the skills necessary to diagnose and treat a wide range of gastrointestinal issues, with a particular focus on liver-related conditions, esophageal disorders, and colorectal cancer screenings.

Fluent in English and Spanish, Dr. Rodriguez is dedicated to making healthcare accessible to a diverse patient population, and her basic knowledge of Portuguese further enhances her communication with patients from various backgrounds. Her life experiences have shaped her into a hard-working and dedicated physician who prioritizes her patients' needs above all else.

Outside of her practice, Dr. Rodriguez enjoys spending quality time with her family and dogs, as well as indulging in her hobbies, which include traveling, cooking, reading, gardening, exercising, and visiting the beach. These activities allow her to maintain a well-rounded life, which she believes is essential for providing the best care to her patients.
