

# Sharron Collins Releases No Room for Bullies, A Children's Story Promoting Courage,

Kindness, and Safe School Communities

**Austin, Texas Mar 18, 2026 ([IssueWire.com](http://IssueWire.com))** - Educator, empowerment speaker, and entrepreneur Sharron Collins brings an important conversation to young readers with the release of her children's book, *No Room for Bullies*. Inspired by years of experience working with students and witnessing the emotional impact of bullying on children, Collins offers a heartfelt story that encourages courage, self-awareness, and open communication.

Through a relatable narrative and compassionate storytelling, *No Room for Bullies* introduces readers to June, a young girl beginning the fifth grade at a new school after previously experiencing bullying. As June faces her fears about fitting in and being accepted, she discovers a school environment built on respect and support—one where the message is clear: bullying has no place.

### **A Story That Encourages Children to Speak Up**

At the center of *No Room for Bullies* is a simple but powerful message: every child deserves to feel safe and heard. Through June's conversations with her mother and her experiences on the first day of school, the story highlights the importance of communication, trust, and self-confidence.

The book encourages children who may be experiencing similar challenges to know they are not alone and that speaking up is the first step toward finding support. By portraying caring adults, supportive friendships, and a school community committed to kindness, Collins provides young readers with a positive example of what a safe learning environment can look like.

### **Promoting Awareness and Empowerment**

Beyond the story itself, *No Room for Bullies* serves as a conversation starter for families, educators, and community leaders. Collins emphasizes that bullying is a serious issue that should be addressed openly and compassionately. The book can serve as a valuable resource in classrooms, homes, and youth programs to help children understand the importance of empathy, respect, and standing up for themselves and others.

With the growing influence of digital communication and the increased exposure young people have to the world around them, Collins believes discussions about bullying and emotional well-being are more important than ever. Her goal is to empower children to recognize their voice and to encourage adults to listen and support them.

### **About the Author**

Sharron Collins is an author, mother, educator, empowerment speaker, and entrepreneur born in Pennsylvania and currently living in Florida with her children. Passionate about promoting literacy and self-awareness within communities, she has dedicated much of her career to teaching and mentoring young people.

Through her company, MPowerment U, Collins focuses on raising awareness about real-life challenges individuals face while encouraging communities to work together toward positive change. Her guiding motto, "We are Stronger and Better, Together," reflects her commitment to unity, empowerment, and understanding.

Collins hopes *No Room for Bullies* will inspire both children and adults to take bullying seriously, encourage open conversations, and create environments where every child feels valued and safe.

## **Availability & Contact**

*No Room for Bullies* is now available through major online book retailers.

If you or someone you know is experiencing bullying and is unsure what steps to take, Collins encourages reaching out to trusted adults such as teachers, school counselors, school principals, school superintendents, or the State Department of Education.
