Once the team size requirement is met, contact customer service to apply for a level upgrade and claim your daily rewards.

A 10% bonus for introducing an A-level candidate

Please note that A, B, and C are the team leaders, and the members of the first, second, and third levels, respectively. They together form a team. Each member is a team leader and can form their own team.

Mumbai, Maharashtra Mar 24, 2026 ([IssueWire.com](https://www.IssueWire.com)) - SPS platform Becomes the Top Choice for Part-Timers and Low-Barrier Investors

As a leading global cloudmining platform, SPS platform has recently launched a groundbreaking mobile application that brings the mining experience of mainstream cryptocurrencies such as Bitcoin, Litecoin, and Dogecoin to smartphones. Founded in 2018 with a formal British operating license, this technology company upholds the concept of “mining for everyone” and is committed to promoting the popularization of cryptocurrencies.

Five Core Advantages of SPS platform Military-Grade Security Protection

The platform adopts McAfee® triple encryption protocol and Cloudflare® firewall technology to build a bank-level asset security system.

Low Entry Threshold

Each user can invest a maximum of only 500 Indian Rupees, lowering the barrier and greatly increasing the number of simultaneous online miners.

Dual Income Incentive Program

- Invest a principal of 500 rupees to earn 3% daily interest. With compound interest, the principal doubles in 20 days and grows to 6 times the original amount in two months.
- No principal investment required: become an SPS promoter, invite new users to register, and receive a 10% commission plus VIP daily salary rewards.

Long-Term Operation Support & Automatic Earnings Accumulation

The platform ensures stable long-term operation and enables automatic earnings accumulation for users.

Promotion & Part-Time Earnings

[Register an SPS account](#) to become an agent, then use your invitation link to invite new users. You will receive 50 INR when a new user successfully deposits funds. The more new users you invite, the higher your VIP level and the higher your daily salary.

As the team leader, you invite User A (your Level 1 agent), who invites User B (your Level 2 agent), who invites User C (your Level 3 agent). All members of A+B+C belong to your team.

For example:

- VIP1 requirement: total team members (A+B+C) reach 20, with at least 5 Level A members.
- VIP1 daily salary: 200 INR, paid daily.

Market Outlook and Vision

The Chief Technology Officer of Binance stated at a press conference: “When ARK Invest predicts that Bitcoin will break through the \$100,000 mark, we firmly believe that ordinary investors should also share the dividends of this industry. Through mobile mining, users do not need to understand complex parameters or purchase expensive equipment, truly achieving ‘wealth at your fingertips’.”

Currently, the platform serves more than **8 million users** across **180 countries and regions worldwide**. Its latest mobile application supports both iOS and Android.
