

# Stream2watch.tv Unifies Legacy Domains to Launch Global Sports Rights Directory

Veteran sports indexer consolidates .com and .cc assets into a verified mapping platform to stop malicious clones.

**Los Angeles, California Mar 23, 2026** ([IssueWire.com](https://www.issuewire.com)) - Stream2watch Media Group today announced the consolidation of its global domain portfolio into the new **Stream2watch.tv** ecosystem. This strategic move unifies high-value legacy assets—including the **.com, .cc, .co, .me, .sx, .media, .ws, .se, and .stream** extensions—under a single, verified Live Sports Media Rights Mapping platform.

The consolidation serves as a direct response to the rise of fraudulent "clone" websites attempting to capitalize on Stream2watch's 13-year reputation. By redirecting all official legacy domains to the new .tv destination, the group is providing a secure, verified environment for fans to navigate fragmented legal broadcasting.

"Since our founding in 2012, we have maintained a 100% record of domain resilience," said **Alexander Knight, Lead Sports Data Architect**. "However, the industry is plagued by malicious phishing clones and automated DMCA abuse. In three years, we have processed 40,000+ automated 'bot' takedown requests targeting basic news metadata. By pivoting to a 100% legal rights-mapping model, we are drawing a definitive line in the sand."

The newly engineered Stream2watch.tv platform utilizes proprietary architecture to track broadcasting rights for over 1,300 verified streaming services and 900 TV channels across 85 countries. The platform acts as a "Legal Compass," showing fans exactly which official network or app holds the rights to their local games.

"We are solving the service problem legally," Knight added. "By making the authorized path easy to find, we make the grey market obsolete."

The group warns that any "Stream2watch" site not part of this redirect ecosystem is a fraudulent entity and a security risk.

The verified directory is live at <https://stream2watch.tv>.

## About Stream2watch.tv:

Established in 2012, Stream2watch.com is a premier sports media rights directory and data architecture firm. It provides transparent, real-time data to help fans find authorized live sports broadcasts worldwide.
