

Us Trust Business Loans Enters Into Strategic Partnership With ifunddoctors.com

New Healthcare Community Long-Term Capital Solutions Nationwide

Miami, Florida Oct 8, 2026 ([Issuewire.com](https://www.issuewire.com)) - When Us Trust Business Loans was founded in 2020, it served the Florida community of neighboring cities and towns to connect the right type of healthcare business capital to all healthcare professionals. However, it seems the contrary resulted, "imprudent business advice" across Miami, Florida and surrounding areas. Us Trust Business Loans quickly determined that skilled nursing centers to individual private practice doctors and chiropractors were soaked in high rate, merchant cash advances, with APR's sometimes exceeding 125% on contracts healthcare professionals signed with other companies.

At the same time, these healthcare professionals had median fico scores above 650 with very stable monthly business cash flow and were in business for 3 years. It's a common issue in our business that some bad apples were and are recommending the worst financial product to grow long-term. This financial product has short-term value, but long-term toxicity as you're trying to expand your practice, deal with the right individual and truly have a trusted partner. Healthcare professionals go out of business, trying to juggle 5 to 7 merchant cash advances. Mathematically, your practice can suffer drastically, and it can seem as if you're borrowing just to pay off the last advance. Ifunddoctors.com offers special medical lines of credit to buy out ill-advised financial capital products that may not be suited for long-term growth to support your client community. Our new medical funding department fills a

void the healthcare industry is missing.

A simple and basic approach--provide astute financial advice with the client's best interest in mind and not our own. Slowly dominate the healthcare capital landscape for healthcare business capital for long-term community expansion.
