Sao Paulo , Sao Paulo May 4, 2026 (IssueWire.com) - **Acafilmes**, the vanguard of Brazil's "cinema of invention," is proud to announce two major upcoming productions led by visionary producer **Alexandre Alonso**. These projects mark a significant expansion of the company's slate, bridging the gap between high-concept suspense and raw, independent feature filmmaking.

A New Vision of Suspense: Untitled Project with Christiane Triccerri

Acafilmes has officially entered production on a groundbreaking suspense short film starring the legendary icon of Brazilian stage and screen, **Christiane Triccerri** (*The Passion According to G.H.*, *Anarquistas*, *Graças a Deus*).

The project, described as a "transmedia experience," explores the psychological fractures of its protagonist through a radical lens. Featuring the atmospheric cinematography of **Jonas Malferrari**, the film promises to challenge traditional narrative structures.

"Our work thrives on friction," says **Alexandre Alonso**. "By bringing together the immense talent of Christiane Triccerri and the visual mastery of Malferrari, we are creating a project that refuses to be ignored. We are using the resources of the center to feed the fire of the margins."

"FIRE": A New Feature Film Starring Ricardo Baptista

Simultaneously, Alonso has greenlit the highly anticipated feature film titled **FIRE**. The film stars **Ricardo Baptista**, marking a significant collaboration for Acafilmes' next wave of production.

Following the international success of the company's recent feature *The End*, which is currently touring the global festival circuit, **FIRE** is set to further cement Acafilmes' reputation for "cinema of invention." The film will blend high-concept aesthetics with the uncompromising energy of guerrilla filmmaking to provoke and redefine the boundaries of independent cinema.

About Acafilmes

Founded on the principle of artistic transgression, **Acafilmes** has become a beacon for works that explore the complexities of the human condition. Under the leadership of **Alexandre Alonso**, the production house has successfully navigated the global genre film circuits and independent distribution, balancing underground roots with sophisticated production technologies.
