

## All Wiring Needs Launches Nationwide “POTS in the Box”

**Charleston, South Carolina Apr 10, 2026 ([IssueWire.com](https://www.issuewire.com))** - Reliable Cellular Dial Tone Replacement for Alarms, Elevators, and Fax Lines Single Multi-Carrier SIM Solution Helps Businesses Nationwide Future-Proof Critical Communications Before Copper POTS Lines Are Getting Fully Retired

All Wiring Needs, LLC, a trusted provider of network infrastructure and connectivity solutions, today announced the nationwide availability of its “POTS in the Box” service — a advanced cellular dial tone replacement designed to replace aging copper Plain Old Telephone Service (POTS) lines. As major carriers continue phasing out traditional copper phone lines, businesses across the country risk service disruptions, rising costs, and compliance issues for life-safety and critical systems. All Wiring Needs’ solution delivers reliable, seamless dial tone using a single multi-carrier SIM card that automatically connects to the strongest signal from Verizon, AT&T, T-Mobile, and additional networks, with no roaming charges across the USA.

The dial tone service is ideal for:

- Fire and burglar alarm systems

- Elevator emergency phones & call button
- Fax machines and other analog devices

Key features include:

- One SIM card supporting multiple major carriers for maximum reliability and coverage
- Performance prioritization to ensure the best possible connection
- Significant cost savings by replacing multiple individual SIM subscriptions
- Easy, seamless integration with existing equipment
- Nationwide deployment with direct carrier relationships for dependable service

“Businesses everywhere are feeling the pressure as copper POTS lines are retired,” said Ruslan at All Wiring Needs. “Our ‘POTS in the Box’ solution makes the transition simple and affordable. With one multi-carrier SIM providing coast-to-coast coverage and no roaming fees, companies can future-proof their critical systems without downtime or complexity.” Whether operating in major metropolitan areas or smaller markets, businesses can now upgrade their alarm, elevator, and fax communications with enterprise-grade reliability before the traditional telecom sunset. The service is available immediately to businesses nationwide. All Wiring Needs also offers full network cabling, business internet brokerage, and IT infrastructure solutions to support complete connectivity upgrades.
