Los Angeles, California Apr 22, 2026 (Issuewire.com) - Dr. Bharat Agravat, a renowned Dental Implant Surgeon with over 30 years of clinical expertise, today announced a breakthrough in organic oral care: the "Organic Agravat Moringa Mouth Shot." This innovative technique offers a natural, non-invasive solution for millions suffering from Oral Submucous Fibrosis (OSMF) and chronic mouth

burning sensations.

As Oral Submucous Fibrosis (OSMF) cases rise globally due to tobacco and betel nut habits, patients frequently face the dual challenge of restricted mouth opening and agonizing burning sensations while eating. Dr. Agravat's latest protocol focuses on systemic healing through pharmaceutical-grade superfoods to complement traditional physical rehabilitation.

The Science of Reducing Mouth Burning Naturally The primary hurdle in OSMF recovery is chronic mucosal inflammation. Dr. Bharat Agravat emphasizes that topical treatments often fall short because they do not address underlying systemic damage.

"To reduce mouth burning sensation naturally, we must neutralize toxins at a cellular level," says Dr. Kartavya Agravat, Innovator of the QSG DIY Kit. "Organic Agravat Moringa contains 46 antioxidants and 90+ vital nutrients that specifically target stiff fibrous bands, softening them while calming the sensitive oral lining."

What is the "Organic Agravat Moringa Mouth Shot" Technique?

The 1-Minute Habit Protocol:

The hallmark of this new era in oral wellness is a simple, 1-minute daily habit integrating local repair with systemic detoxification:

- 1) Prepare: Mix 1/2 teaspoon of Organic Agravat Moringa in lukewarm water.
- 2) Swish & Gargle: Swish vigorously for 30-60 seconds. This allows the antioxidants to be absorbed directly into the affected cheek tissues.
- 3) Swallow: Swallow the mixture to allow the nutrients to enter the bloodstream for deep, internal healing.

Doing this twice daily ensures that the patient is fighting OSMF both from the outside (local absorption) and the inside (systemic nutrition).

A New Standard in D2C Healthcare Marking a significant shift toward Organic Oral Care, Dr. Agravat Healthcare Ltd is providing a "Gold Standard" DIY home treatment. Currently an "Amazon's Choice" bestseller, Organic Agravat Moringa is helping patients globally transition from restricted opening to a healthy, full-smile recovery.

About Dr. Bharat Agravat, Dr Kartavya Agravat & Dr. Agravat Healthcare Limited

- Dr. Bharat Agravat <https://www.drbbharat.agravat.com/> is an award-winning Dental Implant Surgeon and the innovator behind the world's first clinically tested OSMF Mouth Opening Kit.
