

Earthdance Announces 2026 Theme, Podcast, and Marketplace Launch

San Francisco, California Apr 29, 2026 ([IssueWire.com](https://www.issuewire.com)) - This summer, Earthdance Global celebrates 29 years and expands into a new era of connection, creativity, and conscious commerce. With the launch of our official podcast, the unveiling of our 2026 theme, and the introduction of the Earthdance Marketplace, we are creating new ways for our global community to engage and express themselves.

“Giving Peace a Dance” Podcast with RadioCave Corporation

Beginning July 3, 2026, Earthdance will launch its official audio podcast, hosted on [EarthdanceGlobal.com](https://www.earthdanceglobal.com), featuring a live chat for interaction and discussion during the podcast. Listeners can expect a blend of interviews, creative showcases, and meaningful dialogue that highlights both emerging and established artists, while also opening the door for collaboration, exposure, and growth within a supportive global network.

Our Event Coordinator, Nicholas Seigel, will host live conversations with a range of featured artists. Following each discussion, the artist will present a curated two-hour music set, offering listeners an opportunity to experience their sound more deeply. Tune in to discover new music and connect with artists from around the world.

There will be two podcasts streaming each month, starting on July 3 and leading up to our annual September gathering. They will air on the first and third Friday at 8pm EST.

You can visit the [RadioCave Corporation Facebook page](#) and navigate to the “Events” section, where you’ll find *The Official “Giving Peace a Dance” Podcast with Earthdance International* event page for additional details.

If you’d like to get involved with the podcast, please email nic@earthdance.org.

Earthdance Global Festival

Now in our 29th year, our annual September gathering will be held on September 19, 2026 in multiple locations around the world. This year’s theme is *The Heart & Beat of Humanity*. At the center of this movement is our [Global Synchronized Prayer for Peace](#), when every event around the world pauses at the same time to play the *Prayer for Peace* music track.

When thousands of people gather simultaneously around the world with collective intention, the experience becomes visceral. It’s a reminder that beneath our differences, we share the same pulse; the same desire for belonging, healing, and a more compassionate world. Our 2026 theme, *The Heart & Beat of Humanity*, reflects this shared rhythm. It honors the simple truth that peace begins within individuals, grows through connection, and is amplified when we come together. In listening to one another, and to the planet, we remember that humanity is strongest when we act in unison.

We invite individuals and communities around the world to participate by hosting local gatherings in alignment with our global synchronized events. If you are interested in organizing an event, please visit [Earthdance.org/event-registration/](https://earthdance.org/event-registration/) to learn more and register.

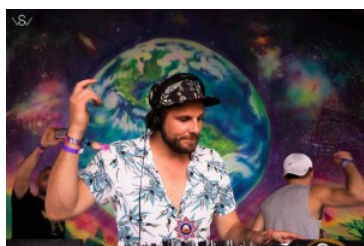

“Earthdance is a world of individuals, communities, and businesses working and playing together, creating a culture of peace through music and dance, global synchronicity, and social activism. We are the celebratory space, asserting that peace is about living fully and thriving even more than it is about protesting war, as important as those efforts are. More than just an epic party, Earthdance is a flash forward to a peaceful future.”

Earthdance Marketplace

Earthdance Global is proud to introduce the Earthdance Marketplace, featuring a curated selection of new designs and offerings. The marketplace showcases inspired products created to uplift the mind, body, and community, while supporting a greater purpose. Every purchase contributes to global peace events, grassroots initiatives, and a growing movement dedicated to unity through music and love.

As a welcome, customers can enjoy 10% off their first purchase using the code: FIRST10.
