

Elite Sports Releases Color BJJ Gis with Pre-Shrunk, Pearl-Weave Fabric for Long-Term Use

The Elite Sports BJJ gi lineup spans men, women, and kids, with gis made from 450gsm preshrunk, Pearl Weave fabric to avoid shrinkage, color fading, and ensure long-term use.

Los Angeles, California May 1, 2026 ([Issuewire.com](https://www.issuewire.com)) - Elite Sports, a maker of [BJJ gear](#) and training apparel, has released a broad [color BJJ Gi series](#) for men, women, and kids. Built from 450gsm preshrunk Pearl Weave fabric, the gis are designed to hold their shape and color through repeated machine washing and drying.

The preshrunk gi fabric is the key detail. Heat from a dryer typically causes shrinkage and color fading in standard BJJ gis over time, which is why most brands recommend hanging them outdoors to dry. Elite Sports has processed its fabric to handle both machine washing and machine drying without size change or color shift, allowing the gi to be cared for like everyday clothing.

The BJJ jacket uses a CVC blend of 60% cotton and 40% polyester at 450gsm. The pants are cut from a 65% cotton, and 35% polyester CVC blend at the same weight, with a rope drawstring closure. Stitching is reinforced at the seams and high-stress points to withstand the gripping and pulling that come with live BJJ training sessions. Side slits are built into the jacket to allow a wider range of motion during training or competition, and the build is kept light enough for long training sessions.

All IBJJF-approved BJJ gi colors, including the white, black, and [core blue gi](#), in the Elite's range, carry IBJJF approval, meaning they meet fabric and fit rules for use in sanctioned BJJ events. Each gi ships with a white belt included.

The men's colored BJJ Gis currently come in 10 colors for men: white, black, blue, navy, military green, gray, grey camo, yellow, red, and orange. The [women's BJJ Gi](#) lineup is offered in white, black, pink,

purple, and blue. For younger athletes, the kids' BJJ Gi range comes in white, black, gray, blue, navy, military green, red, and pink.

Full details on each color, size, and fit option are listed on [Elite Sports'](#) website.

About Elite Sports

Elite Sports is a maker of BJJ training gear, offering a range of BJJ gis, rash guards, and shorts for men, women, and kids. The brand designs its products for regular mat use, focusing on durability and innovative construction.
