

Enorbe and Plexlane Announce Strategic Partnership to Deliver Global Capability Center & Technology

Enorbe and Plexlane combine global execution and strategic technology leadership to help organizations establish GCCs, accelerate digital transformation, and scale operations efficiently.

Tampa, Florida Apr 29, 2026 ([IssueWire.com](https://www.issuewire.com)) - Plexlane and Enorbe Announce Strategic Partnership to Deliver Global Capability Center and Technology Transformation Services

Plexlane, LLC, a Florida-based technology services firm focused on digital transformation and IT strategy, and **Enorbe (QuadAssure LLC)**, a global advisory firm specializing in Global Capability Center (GCC) setup and offshore operational support, today announced a strategic partnership to jointly deliver integrated services to clients across the United States and globally.

This collaboration brings together Plexlane's expertise in IT strategy, enterprise architecture, cybersecurity, AI, and ERP transformation with Enorbe's deep capabilities in GCC advisory, India-based operations, talent acquisition, and business enablement services.

Together, the companies aim to help organizations:

- Establish and scale Global Capability Centers (GCCs)
- Accelerate digital transformation initiatives
- Optimize offshore operating models
- Enhance finance, HR, and operational efficiency
- Navigate cross-border regulatory and compliance requirements

"This partnership is about bringing together complementary strengths," said **Gunjan Goel, Founder & CEO of Plexlane**. "Plexlane focuses on aligning technology with business outcomes, particularly in complex and regulated environments. Enorbe brings strong execution capabilities in setting up and operating GCCs. Together, we can offer clients an end-to-end solution—from strategy through execution."

Deepak Gupta, CEO of Enorbe, added:

"We are excited to partner with Plexlane to expand our reach into U.S.-based clients and deliver greater value through integrated advisory and operational support. Plexlane's leadership in technology strategy and transformation complements our experience in building and managing GCCs."

The partnership is structured to allow both companies to collaborate on a non-exclusive basis, providing flexibility to tailor solutions based on client needs while leveraging shared strengths.

About Plexlane

Plexlane is a technology services firm focused on helping growth-oriented and regulated organizations align technology with business outcomes. The firm provides services across IT strategy, digital transformation, cybersecurity, AI, ERP, and managed services, with a strong focus on delivering enterprise-grade capabilities to mid-market organizations.
