London, United Kingdom Apr 23, 2026 ([IssueWire.com](https://www.issuewire.com)) - EPOS Direct, a leading provider of [point of sale solutions](#) in the UK, has announced the launch of its advanced all-in-one EPOS system designed to support retail, hospitality, and small businesses with smarter, more efficient operations.

The new system combines powerful [POS software](#) with reliable hardware, enabling businesses to manage sales, inventory, reporting, and customer data from a single platform. With increasing demand for cost-effective business tools, EPOS Direct aims to provide a solution that eliminates the need for multiple systems and reduces operational complexity.

One of the key highlights of the system is its no monthly software fee model, allowing businesses to avoid ongoing subscription costs while maintaining full control over their operations. This approach is particularly beneficial for small and medium-sized businesses looking to optimize expenses without compromising on performance.

The EPOS system is designed for a wide range of industries, including retail stores, pharmacies, restaurants, cafés, and convenience shops. It offers features such as real-time sales tracking, inventory management, advanced reporting, and offline functionality, ensuring uninterrupted business operations.

A spokesperson from EPOS Direct stated,

“We understand the challenges businesses face with rising costs and inefficient systems. Our goal is to provide a reliable and easy-to-use POS solution that helps businesses streamline operations and grow sustainably.”

With easy installation, full training support, and scalable features, EPOS Direct continues to position itself as a trusted partner for businesses seeking modern POS solutions.
