

Evan Leonard, DMS, MS, PA-C, Recognized by America's Best in Medicine, Advances Medicine Through Clinical Practice, Education, and Research Leadership

Distinguished Medical Scientist, Clinical Anatomist, and Physician Associate Bridges Patient Care, Academic Innovation, and Healthcare Advancement

Miami, Florida Apr 22, 2026 ([Issuewire.com](https://www.Issuewire.com)) - Evan Leonard, DMS, MS, PA-C, is a distinguished Medical Scientist, Clinical Anatomist, and Physician Associate whose accomplished career spans

clinical medicine, higher education, research, and healthcare innovation. Recognized for his expertise in emergency medicine, anatomy, physiology, and physician assistant education, Dr. Leonard has earned a reputation for excellence through a multidisciplinary career dedicated to improving patient outcomes and shaping the future of medicine.

Currently, Dr. Leonard serves as an Assistant Professor in the Physician Assistant Program at Barry University and as a Visiting Professor of Anatomy & Physiology and Human Biology at Chamberlain University. In these academic roles, he teaches graduate-level courses in anatomy, neuroanatomy, pathophysiology, surgery, and physical diagnosis. He also holds key leadership responsibilities as Course Director for Gross Anatomy and Surgical Principles, while contributing to admissions, curriculum development, student evaluation, and program outcomes committees.

His teaching philosophy centers on experiential learning, clinical relevance, and mentorship. By integrating real-world case experience into the classroom, Dr. Leonard prepares future healthcare professionals to think critically, communicate effectively, and deliver high-quality patient care in complex clinical environments.

Dr. Leonard's extensive clinical background includes emergency medicine, internal medicine, urgent care, and critical care practice at respected healthcare institutions such as the University of Florida Hospital System. His hands-on expertise includes advanced procedures such as cardiopulmonary resuscitation, central line placement, intubation, lumbar punctures, and critical care management. His broad clinical skillset reflects years of service in fast-paced, high-acuity medical settings where precision and decisive action are essential.

In addition to direct patient care, Dr. Leonard has contributed to clinical research, participating in Phase III trials and supporting advancements in critical care, cardiovascular medicine, and neurological treatment. His work in research demonstrates a strong commitment to evidence-based medicine and continual improvement in healthcare delivery.

"I find the greatest fulfillment in practicing medicine through both patient care and medical education," said Dr. Leonard. "I enjoy helping patients navigate complex health challenges while also mentoring the next generation of healthcare providers. Being able to combine clinical practice with teaching allows me to make a meaningful impact on individuals and the broader medical community."

Beyond medicine and academia, Dr. Leonard is also an entrepreneur and consultant. He is Co-Owner of Excellent Realty, where he oversees strategic investment, asset performance, and governance. He has also served as CEO and Medical Science Director of Health Education Totalis, delivering services in medical writing, healthcare consulting, artificial intelligence training, and medical education. His work in emerging technologies highlights his forward-thinking approach to integrating innovation with patient-centered care.

Dr. Leonard's academic credentials are equally impressive. He earned a Doctor of Medical Science from Lincoln Memorial University, a Master of Medical Science from Nova Southeastern University, a Master of Science in Anatomy and Cellular Biology from Barry University, and a Bachelor's Degree in Human Biology from the University of Miami. He is certified by the National Commission on Certification of Physician Assistants (NCCPA), and maintains extensive certifications in airway management, critical care, and advanced clinical procedures.

A military veteran as well, Dr. Leonard served as a corporal in the United States Marine Corps, where he led the deployment of shock trauma platoons, which are highly mobile surgical field units. His military

service was recognized with multiple honors and commendations, underscoring his leadership, discipline, and dedication to service.

Throughout his career, Dr. Leonard has authored peer-reviewed publications, co-authored book chapters, written a book, participated in academic symposiums, and supported global medical missions. Whether in the classroom, clinic, research setting, or community, he remains committed to advancing healthcare and inspiring future medical professionals.

With an unwavering passion for education, service, and innovation, Dr. Evan Leonard continues to make a lasting impact on medicine, academia, and the communities he serves.
