

# Evans Travel & Tours Limited Expands West Africa Operations, Strengthening Multi-Country Tourism Across the Region

Driving Growth in West Africa Tours, Cultural Heritage Travel, and Multi-Country Africa Tourism Experiences

**Ikorodu, Lagos Apr 19, 2026 ([Issuewire.com](https://www.issuewire.com))** - Evans Travel & Tours Limited, a leading West Africa tour operator and African travel agency founded by Evans Aguiyi, has announced a strategic expansion of its operations across Benin Republic and broader West Africa to strengthen cross-border tourism and enhance access to immersive cultural travel experiences.

The expansion reinforces the company's position among emerging best African tour companies delivering structured West Africa tours, multi-country Africa tours, and cultural heritage travel experiences across Nigeria, Benin Republic, Togo, Ghana, and Côte d'Ivoire.

**Strengthening West Africa Travel and Tourism Connectivity**

According to Evans Travel & Tours Limited, the expansion is designed to improve regional travel coordination, enhance tour logistics, and support growing international demand for African heritage tours and cross-border Africa travel packages.

West Africa continues to gain global attention as a top destination for cultural tourism in Africa, historical exploration, and roots tourism experiences. Countries such as Benin Republic, Ghana, and Nigeria play a key role in shaping African diaspora tours and slave trade historical routes.

Benin Republic, in particular, remains central to African heritage tourism due to key historical sites such as Ouidah, Cotonou, and the Slave Route of No Return.

Evans Aguiyi, founder of Evans Travel & Tours Limited, stated that the expansion reflects the company's mission to simplify travel across West Africa while delivering authentic cultural immersion.

"West Africa holds some of the most powerful cultural and historical travel experiences in the world. Our expansion allows us to make these journeys more accessible, structured, and meaningful for international travelers," he said.
