

Fergus Native Charles Ndegwe Launches CNA Professional Accountants Corp. to Redefine Financial Strategy

Bringing Over a Decade of Cross-Industry Expertise, Ndegwe Moves Beyond Compliance to Deliver Profit-Driven Financial Leadership

Fergus, Ontario May 8, 2026 ([Issuewire.com](https://www.issuewire.com)) - Fergus native Charles Ndegwe, a Chartered Professional Accountant holding the CPA, CGA, and FCCA designations, has officially established CNA Professional Accountants Corp. — a full-service accounting and financial advisory firm built on the conviction that numbers should do more than satisfy regulators. They should drive growth.

A Vision Rooted in Strategy, Not Just Compliance

With more than 10 years of cross-industry experience spanning financial analysis, controllership, tax planning, and budget management, Charles Ndegwe has built a reputation for seeing what most accountants miss: the strategic story behind the figures. At CNA Professional Accountants Corp., clients are not handed a report and sent on their way — they are walked through what the numbers mean, where the opportunities lie, and how to act on them.

"Compliance is the floor, not the ceiling," said Ndegwe. "Every set of financial statements is a roadmap. My job is to help business owners read it."

Services Designed for Clarity and Confidence

CNA Professional Accountants Corp. offers a comprehensive suite of services: financial analysis and reporting that translates complex data into actionable business intelligence; controllership services that bring CFO-level oversight to small and mid-sized businesses; strategic tax planning that goes beyond annual filings; and forward-looking budget and forecast management designed for sustainable growth.

Deep Roots, Forward-Thinking Practice

As a [Fergus native, Charles Ndegwe](#) understands the ambitions and challenges of local entrepreneurs and regional businesses. His triple designation — CPA, CGA, FCCA — reflects not only technical mastery but a commitment to continuous professional development and the highest standards of ethical practice. His approach anticipates market shifts and positions clients ahead of them, rather than simply catching up.

About [CNA Professional Accountants Corp.](#): CNA Professional Accountants Corp. is a trusted Canadian firm offering expert bookkeeping, HST/GST filing, corporate (T2), and personal (T1) tax services. Led by owner Charles Ndegwe Afunaduula, a CPA-certified professional with over seven years in financial controllership, budgeting, forecasting, and audit compliance, the firm ensures precise financial analysis and compliance with IFRS, GAAP, and WSIB standards.
