

Free Chetu Webinar Tackles How to Avoid ‘Pilot Purgatory’ When Adopting AI

April 16 Webinar Will Help Business Leaders Understand How to Proceed with AI Adoption

Sunrise, Florida Apr 14, 2026 ([IssueWire.com](https://www.issuewire.com)) - Businesses are stuck in “Pilot Purgatory” when implementing Artificial Intelligence software solutions. While the promise of automation is high, many organizations find their AI initiatives stalled by stagnant productivity, data silos, and a critical shortage of specialized talent.

Chetu, global leader in AI and digital transformation solutions, will give business leaders a step-by-step framework that will enable them to avoid “Pilot Purgatory” and successfully roll out scalable AI systems on its latest **Free Executive Webinar: [Define Your AI Strategy: Build vs. Buy vs. Partner](#) on April 16 at 2 p.m.**
