

## Glass Genie Expands Across the DFW Metroplex with 9 Locations Offering Hybrid Office & Mobile Auto Glass Services

**Dallas, Texas Apr 18, 2026 ([Issuewire.com](https://www.issuewire.com))** - With more than 30 years of hands-on experience in auto glass replacement and ADAS calibration, Daniel Fitw continues to expand Glass Genie's reach across North Texas. The company now operates through a hybrid model that combines physical locations with mobile service, giving drivers across DFW easier access to reliable, expert-level care.

## A Service Model Built Around Real Customer Needs

Glass Genie keeps things straightforward. You can visit a nearby location, or have a technician come directly to you, whether that's at home, at work, or anywhere else that's convenient.

This approach reflects how people actually deal with car issues today. You want the job done right, but you also don't want to disrupt your entire day to make it happen.

"Auto glass is not just about visibility. It's about safety," said Fitw. "Over the years, I've seen the shift from simple replacements to vehicles that rely on advanced systems. Our team is trained for both, and our model makes it easier for customers to stay safe without going out of their way."

## Glass Genie Locations Across the Metroplex

Glass Genie currently operates across seven core locations throughout the Dallas-Fort Worth area, each delivering the same level of quality and technical expertise.

The company's headquarters is located at 6101 E Mockingbird Lane in Dallas, Texas, and can be reached at (469) 200-4801.

In Plano, Glass Genie Mobile operates from 1601 Summit Ave, Suite 100, Plano, TX 75074, with service available at (469) 751-4813.

The McKinney mobile unit is based at 3100 St James Place, McKinney, TX 75070, and can be contacted at (214) 310-1858.

In Lewisville, Glass Genie serves customers throughout the area and is available at (972) 471-9155.

The Frisco location provides service across the city and can be reached at (972) 776-6395.

In Garland, the office is located at 3433 Apollo Road, Garland, TX 75044, with phone support at (214) 989-6838.

Mansfield customers can access services throughout the area by calling (817) 310-8597.

## Sub-Brand Spotlight: Auto Glass Fort Worth and Arlington

To better serve customers in the western and southwestern parts of the Metroplex, Glass Genie also operates under two localized brand names.

Auto Glass Fort Worth is located at 5000 Bryant Irvin Road, Fort Worth, TX 76132, and can be reached at (817) 382-4930.

Auto Glass Arlington Texas operates from 1400 W Interstate 20, Arlington, TX 76017, with service available at (682) 237-6275.

## Serving 44+ Communities Across North Texas

In addition to its physical locations, Glass Genie's mobile technicians cover a wide range of surrounding communities. The idea is simple. Wherever you are in DFW, you shouldn't be far from qualified help.

Mobile service is currently available in Addison, Allen, Alvarado, Aubrey, Balch Springs, Carrollton, Cedar Hill, Coppell, Decatur, Denton, DeSoto, Duncanville, Ennis, Euless, Farmers Branch, Ferris, Flower Mound, Forney, Frisco, Grand Prairie, Grapevine, Hurst, Hutchins, Irving, Kaufman, Kennedale, Lewisville, Mansfield, Mesquite, Midlothian, North Richland Hills, Princeton, Richardson, Rowlett, Royse City, Sachse, Sanger, Seagoville, Southlake, Terrell, Trophy Club, Waxahachie, Weatherford, and Wilmer.

### **30 Years of Experience in Auto Glass and ADAS Calibration**

Vehicles today are built differently than they were years ago. Windshields now support critical safety systems such as lane departure warnings, adaptive cruise control, and automatic emergency braking. These features rely on cameras and sensors that are often mounted directly on or near the glass.

Because of that, replacing a windshield is no longer just about installing new glass. It also requires recalibrating those systems so everything works as intended.

[Glass Genie](#) handles both parts of the process. Their technicians are trained to perform static and dynamic ADAS recalibrations based on manufacturer specifications. Not every shop has the tools or expertise to do this correctly.

“When a windshield is replaced without proper ADAS recalibration, the vehicle’s safety systems can fail when you need them most,” Fitw explained. “We make sure that doesn’t happen. That’s our responsibility to every customer, at every location.”

#### About Glass Genie

Glass Genie is a Dallas-Fort Worth based [auto glass repair and replacement](#) company founded and operated by Daniel Fitw. With 30 years of industry experience, the company focuses on delivering dependable service through a combination of physical locations and mobile support.

Services include windshield replacement, chip and crack repair, side and rear glass replacement, and ADAS recalibrations for all makes and models.
