

# Go Coach Charters Successfully Completed 13 Years of Reliable Group Transportation in Alberta

Delivering Safe, Reliable, and Customer-Focused Charter Bus Services Across Alberta Since 2013

**Edmonton, Alberta Apr 20, 2026 ([IssueWire.com](https://www.issuewire.com))** - Thirteen years ago, Go Coach Charters set out with a simple goal: give Alberta groups a transportation service they could actually count on. A decade later, with over 3,000 clients served and thousands of trips completed across the province, that goal has not changed. The commitment behind it has only grown stronger.

From its base in Edmonton, Go Coach Charters has grown into one of Alberta's most recognized charter bus rental providers, safely transporting groups of all kinds in Sherwood Park, Calgary, St. Albert, Fort Saskatchewan, Lloydminster, and across Alberta. What started as a local operation has become a trusted name for schools, corporations, sports teams, wedding events, community organizations, and tour groups throughout the region.

*"What makes thirteen years meaningful is not the number; it is the people. The families, the teams, and the organizations that trusted us with their journeys. We felt that responsibility on day one, and we feel it just as strongly today. This milestone is theirs as much as it is ours," said the CEO of Go Coach Charters.*

Over the past decade, Go Coach Charters has consistently invested in its fleet, its drivers, and its service standards to keep pace with the growing needs of Alberta's communities. The result is a track record built on punctuality, safety, and the kind of service that brings clients back year after year.

Safety has remained the foundation of every trip Go Coach Charters completes. All drivers are professionally trained and certified, and every bus is inspected thoroughly before each departure. Transparent group pricing across all trip types has also made quality charter transportation accessible

to organizations of every size and budget.
