

Hibt Launches 30,000 USDT Futures Bonus Campaign to Reward Active Crypto Traders

Users can earn trading rewards and compete for additional bonuses across spot and futures markets

Singapore, Singapore Apr 22, 2026 ([IssueWire.com](https://www.IssueWire.com)) - Hibt, a global cryptocurrency trading platform, has announced the launch of a limited-time promotional campaign featuring a total reward pool of 30,000 USDT in futures bonus incentives. The campaign is designed to encourage user participation and reward active trading across multiple markets.

Running from April 22 to April 27, 2026 (UTC+8), the campaign introduces a series of incentives for both new and existing users. Participants can unlock eligibility by completing an initial net deposit, after which they gain access to a range of trading-based rewards.

The campaign supports multiple trading products, including spot trading, perpetual futures, and event-based contracts, allowing users to engage with the platform through diverse trading strategies. Rewards are structured across different participation tiers, with users earning bonus incentives based on their trading activity and cumulative volume.

In addition to individual trading rewards, the campaign also features a competitive leaderboard component. Users with the highest trading volumes during the event period will share an additional 5,000 USDT in futures bonus rewards, further enhancing engagement among active traders.

Part of the campaign rewards will be distributed on a first-come, first-served basis, while leaderboard rewards will be allocated based on final rankings after the event concludes. All rewards will be credited to user accounts in accordance with the platform's distribution schedule.

Users can learn more about the campaign and participation details on the official announcement page: <https://support.hibt.com/hc/en-us/articles/15865344272911>

Through this initiative, Hibt continues to expand its user incentive programs and strengthen its trading ecosystem. The platform aims to provide a dynamic and rewarding environment for global cryptocurrency traders by combining flexible trading products with performance-based incentives.
