

# Inspiroz Named to CRN's 2026 Managed Service Provider 500 List in the Pioneer 250 Category

Education-Focused MSP Recognized for Delivering Specialized Managed IT and Cybersecurity Services to K-12 Schools Nationwide

## Education IT is *All We Do*

**Chester, Pennsylvania Apr 17, 2026 ([IssueWire.com](https://www.issuewire.com))** - Inspiroz, a leading provider of managed IT and cybersecurity services exclusively for K-12 schools, today announced it has been named to CRN®'s 2026 Managed Service Provider (MSP) 500 list in the Pioneer 250 category. CRN, a brand of The Channel Company, publishes this annual list to recognize the top managed service providers in North America who are transforming the IT services landscape.

Inspiroz's inclusion on the 2026 list reflects its specialized, education-first approach to managed IT, delivering strategic technology leadership, cybersecurity, cloud services, device management, and compliance-driven support tailored to the unique needs of charter and independent K-12 schools.

Inspiroz currently partners with more than 250 charter and independent schools nationwide, helping school leaders remove technology burdens so educators and students can focus on teaching and learning. The company provides full-stack IT management, including help desk support, network infrastructure, CIPA and FERPA compliance, student data protection, and proactive cybersecurity — all designed specifically for the K-12 environment.

Being named to CRN's MSP 500 list is a tremendous validation of the work our team does every day for schools across the country," said Moss Jacobson, Director of Strategic Partnerships at Inspiroz. "Education IT requires a different approach than commercial IT. Schools need a partner who understands the unique challenges of limited budgets, high compliance demands, and the critical importance of keeping technology running for students and teachers. This recognition confirms that our education-first model is setting the standard."

### About Inspiroz

Inspiroz delivers education-first managed IT services exclusively to charter and independent K-12 schools across the United States. Serving more than 250 schools nationwide, Inspiroz provides

managed IT support, cybersecurity, cloud services, compliance readiness, and strategic technology leadership, all tailored to the unique needs of educational institutions. Inspiroz is a division of ACS International Resources, a five-time Inc. 500 honoree.
