

Iraqi Media Professional Aslan Şehit Expands His Impact in Television and Digital Content

A TV director from Iraq with over 10 years of experience in broadcasting, field coverage, and digital media production at Turkmeneli TV.

Kirkuk, at-Ta'mim Apr 26, 2026 ([Issuewire.com](https://www.Issuewire.com)) - Iraqi Media Professional Aslan Şehit Expands His Impact in Television and Digital Content

Aslan Şehit, a TV director, cameraman, and media professional at Turkmeneli TV, continues to establish a strong presence in television production and digital media with over a decade of experience in the industry.

Since joining Turkmeneli TV in 2012, Şehit has worked across multiple departments, gaining extensive experience in live broadcasting, field coverage, and technical media operations. His expertise includes working with professional camera systems such as Sony and Fujifilm, as well as advanced broadcasting technologies including CCU systems, SNG vehicles, and encoding systems.

Throughout his career, Şehit has contributed to the production and direction of numerous television programs and media projects. One of his most notable achievements includes directing and editing 30 episodes of the Ramadan program “Ramazan Gülistanı,” which received recognition for its quality and presentation.

In addition, he directed the official Turkmen national anthem production, further highlighting his capabilities in large-scale media production. His work has also been featured on major platforms, including an artistic contribution published on the official NetD YouTube channel.

Beyond television, Şehit has developed strong expertise in digital media management, overseeing social media platforms, YouTube channels, and official digital applications. He actively shares behind-the-scenes insights and professional media content through his TikTok presence, engaging a growing online audience.

Şehit has also participated in international training programs in collaboration with TRT and TİKA, covering areas including video editing, filming, social media, and media presentation.

In the field, he continues to play an active role in media coverage, documenting public health inspection campaigns and producing field reports that reflect real-life issues and community awareness.

With a diverse background that combines technical expertise, creative direction, and digital media engagement, Aslan Şehit represents a new generation of media professionals bridging traditional broadcasting with modern digital platforms.
