

iSolve RCM Expands Medical Billing Services to All 50 U.S. States, Serving 50+ Specialties

Edison, NJ — 04/07/2026: iSolve RCM expands nationwide, now delivering medical billing services across all 50 U.S. states. With expertise in 50+ specialties, it provides compliant, efficient, and tailored RCM solutions for healthcare providers.

Edison, New Jersey Apr 26, 2026 ([Issuewire.com](https://www.issuewire.com)) - The expansion comes on the heels of iSolve RCM's quick growth and its ongoing investment in pioneering technologies, its team of highly trained and experienced billing professionals, and its compliance processes. This expansion also establishes the company's commitment to serving healthcare practices of all sizes, from single-specialty practices to large multi-specialty groups, to maximize their financial performance while maintaining a keen focus on patient care.

At iSolve RCM, our mission is to simplify the complexities of medical billing and revenue cycle management," said an official at iSolve RCM. Expanding our service capabilities to all 50 states is a major milestone for us, and we are excited to bring our service capabilities to even more healthcare providers across the country. We distinguish that different specialties face assorted billing challenges, and we are committed to delivering a service that meets those exceptional billing requirements.

The services provided by iSolve RCM are accessible for over 50 specialties, including orthopedics, dermatology, cardiology, radiology, mental health, pediatrics, gastroenterology and many more. Each of these specialties is handled by a team that is knowledgeable and experienced in the particular guidelines that need to be followed for the smooth and accurate submission of the claims.

The approach that is followed by the company is beneficial for healthcare organizations because:

- Accurate coding and documentation.
- Improved speed for claims and reimbursement.
- Minimized denial and rework.
- Enhanced compliance with federal and state regulations.

- Detailed financial reports and analytics.

At the heart of iSolve RCM's success is its utilization of cutting-edge technology and data insights. The firm integrates smoothly with best-in-class electronic health record (EHR) and practice management systems, facilitating real-time information sharing and workflow. Advanced automation technologies ensure that manual errors are eliminated, and analytics allow for insights into important performance metrics such as claim acceptance rates, days in accounts receivable, and revenue.

Our technology infrastructure also enables us to scale efficiently without sacrificing quality, and this is something that we think is really important for healthcare organizations and for healthcare providers.

The company must adhere to a broad array of regulatory requirements, including HIPAA and payer-specific requirements working across all 50 states. iSolve RCM maintains high security standards and endeavors to evolve its processes to keep up with changing healthcare regulations and guidelines. This assures the security and confidentiality of the data while preserving compliance with billing requirements.

Considering the fact that medical practices are gradually faced with administrative challenges, staffing complications, and reimbursement models, the move is timely. Outsourcing medical billing to iSolve RCM can alleviate these issues and let healthcare practices concentrate on the business of delivering quality healthcare to patients.

Our objective is to be a consistent business partner to our clients as they grow. "Whether a practice is looking to improve collections, expand services, or navigate complex payer requirements, iSolve RCM is equipped to deliver measurable results.

About iSolve RCM
