

## LorBZ Drops “Dark Berlin Burning Sunset (Extended Version)” – A Dark Psytrance Journey with Raw Banjo Fire

A 12-minute immersive track built for late-night sets, blending underground energy with unexpected organic elements

### LORBZ DARK BERLIN BURNING SUNSET

Austin, Texas Apr 30, 2026 ([Issuewire.com](http://Issuewire.com)) - Danish artist **LorBZ** (Lord B Records) has released “**Dark Berlin Burning Sunset (Extended Version)**”, a 12-minute immersive track that fuses dark psytrance with unexpected raw banjo textures and soaring violin.

The result is a hypnotic, cinematic journey that moves between the underground clubs of Berlin and the raw energy of American roots music. The extended format gives DJs and listeners space to fully sink into the track's shifting atmosphere — from intense, driving moments to more open and emotional passages.

Rather than following a traditional structure, the track leans into a deeply immersive experience, balancing darkness with moments of light and space. It works equally well in late-night club sets and for focused personal listening.

Alongside the music, a portion of proceeds from the release supports rainforest eco-restoration projects — a cause closely connected to the artist's vision.

An official music video is also available, along with full press assets (HD artwork, stems, and more) upon request.

“Dark Berlin Burning Sunset (Extended Version)” is now available on major platforms:
