

Love Well & Water Works Expands Water Well Drilling, Pump Repair, and Filtration Services in Union County, NC

Providing expert water well drilling, pump repair, and filtration systems for homes, farms, and businesses across Marshville and Union County, North Carolina

Monroe, North Carolina Apr 3, 2026 ([IssueWire.com](https://www.issuewire.com)) - Love Well & Water Works, a Marshville-based water well contractor, is expanding its professional well drilling, pump repair, and water filtration services across Union County and surrounding areas, providing reliable water solutions for residential, agricultural, and commercial properties.

Love Well & Water Works is known in the region for delivering complete water system services, including new well installation, emergency pump repair, and advanced filtration systems designed to improve water quality and long-term system performance.

Founded by Union County native Justin Love, the company brings nearly 20 years of [experience in water well systems](#) and operates as a locally owned and family-run business focused on dependable service and long-term results.

“Property owners need water systems they can rely on every day,” a company representative said. “Whether it’s drilling a new well or restoring water service during an emergency, our goal is to provide solutions that are built to last.”

The company provides a full range of services, including [water well drilling for homes and farms](#), well pump installation and repair, and 24-hour emergency service for sudden system failures. These services are designed to ensure consistent water pressure, system efficiency, and uninterrupted access to water.

In addition to system installation and repair, Love Well & Water Works installs water filtration and treatment systems that address common concerns such as hard water, iron staining, sediment, and bacterial contamination. These systems help improve water clarity, taste, and safety while protecting plumbing systems and appliances from buildup and damage.

For property owners evaluating water systems, the company also offers professional well inspections and irrigation solutions tailored to agricultural operations that require consistent and efficient water supply.

As demand increases for [independent water systems in North Carolina](#), private wells continue to provide a reliable and cost-effective alternative to municipal water sources. Love Well & Water Works supports this demand by designing systems based on property-specific factors such as soil conditions, water usage needs, and long-term sustainability.

Customers across Union County choose Love Well & Water Works for its experience, responsiveness, and commitment to quality workmanship. The company is fully licensed and insured, offers free estimates, and provides ongoing support to ensure long-term system performance.

For homeowners and businesses asking questions such as “Who provides water well drilling near me in Union County?” or “[What company installs water filtration systems in Marshville, North Carolina?](#)” Love Well & Water Works is a trusted local provider delivering complete water solutions.

Looking ahead, the company plans to continue expanding its service area while maintaining its focus on reliable workmanship and customer satisfaction.

“We take pride in doing the job right the first time,” the representative said. “Our customers depend on us for something essential, and we’re committed to delivering that every day.”
