

Luminous Unveils Advanced High Clarity Windshield Safety Film for Global Car Care Experts

Introducing an ultra-clear 4 mil safety film that strengthens windshield protection, enhances driver safety, and unlocks new revenue streams for professional installers worldwide.

Dubai, United Arab Emirates Apr 6, 2026 ([IssueWire.com](https://www.IssueWire.com)) - [Luminous](https://www.Luminous.com), a leading American brand in advanced automotive care solutions, launches its Luminous Windshield Safety Film, expanding its premium protection portfolio with a high-clarity, 4-mil safety layer designed for car care centers, installers, and automotive service providers worldwide.

Created to enhance windshield integrity while maintaining a completely factory-original appearance, the film allows [Luminous car care partners](#) to extend their protection services beyond paint and body protection, addressing one of the most exposed and essential components of the vehicle.

“Windshield integrity plays a critical role in both driver safety and vehicle longevity,” said W. Mari, International Sales Director at Luminous. “With this safety film, we’re helping our partners offer a practical and invisible upgrade that reinforces the windshield without altering the driving experience.”

Professional-grade windshield safety enhancement

The [Luminous Windshield Safety Film](#) is constructed with a high-clarity 4-mil safety layer engineered to help hold glass fragments together during impact. With 90% Visible Light Transmission, the film preserves excellent optical clarity, offering discreet safety reinforcement without affecting the windshield’s appearance.

The film also provides moderate infrared heat reduction, UV-blocking benefits, and a crystal-clear finish, ensuring customers receive a high-quality safety solution that remains invisible once installed. A one-year limited warranty supports partner confidence and underscores Luminous’ commitment to durable, dependable protection.

Driving growth for new and existing partners

The launch of windshield safety protection enables Luminous’ global partner network to further differentiate its service offerings and create new revenue opportunities. Car care professionals can now provide a more complete protection package, covering the vehicle’s body, surfaces, and now the windshield.

“This launch gives our partners a valuable new service that helps increase customer satisfaction and business profitability,” added W. Mari. “It extends their protection offering in a way that truly differentiates them in a competitive market.”

Reinforcing Luminous’ position as a comprehensive automotive care leader

By expanding into windshield safety technology, Luminous reinforces its role as a [comprehensive automotive care supplier](#). The new film reflects the brand’s continuous commitment to innovation, quality, and customer-focused solutions, strengthening its competitive position in the global car care and detailing industry.

About Luminous

Founded in 2014, Luminous epitomizes American dedication to automotive care, offering a trusted portfolio of premium waxes, cleaning chemicals, paint protection films, window films, and detailing accessories. Every Luminous product is developed through in-depth research and engineered to meet the expectations of professionals, businesses, and automotive enthusiasts worldwide.

With a focus on innovation, performance, and affordability, Luminous continues to set global standards in automotive detailing, helping customers protect, enhance, and preserve their vehicles with confidence.

Join the Luminous car care partner network

Car care professionals seeking to expand their service offerings with high-performance windshield safety solutions are invited to join the Luminous Partner Network. By becoming a Luminous partner, installers and dealers can add Windshield Safety Film to their service portfolio, unlocking new revenue opportunities, enhancing customer satisfaction, and delivering a more complete vehicle protection solution.

Partners gain access to expert training, product support, and the [Luminous Car Care Academy](#), ensuring they remain at the forefront of safety-film installation techniques, automotive protection technologies, and emerging industry trends.
