

## New Geopolitical Intelligence Platform Leaders Cartel

A real-time tracking engine for global power shifts enters a field traditionally priced for institutions — starting at \$29 per month.

**LEADERS** CARTEL

**Vancouver, British Columbia Apr 25, 2026** ([IssueWire.com](https://www.IssueWire.com)) - Power Brand Ca, a Vancouver-based technology company, today launched Leaders Cartel, a real-time geopolitical intelligence terminal designed to track power shifts across world leaders, nations, corporations, and strategic commodities.

The platform joins a category that has long been the domain of enterprise-priced intelligence products

— a space historically served by terminals costing tens of thousands of dollars per seat annually and geopolitical analysis subscriptions aimed at hedge funds, defense contractors, and government agencies. LeadersCartel enters that landscape as a new, independently operated product, with consumer-accessible pricing beginning at \$29 per month and a free tier.

At the core of Leaders Cartel is RAVEN, a proprietary intelligence engine that continuously processes signals from more than 333 global data sources. The system classifies events into tiered signals, tracks convergence patterns across sectors and regions, and generates 72-hour directional forecasts on the entities driving global attention.

The live terminal includes a Power Map of 152+ tracked entities scored continuously by real-time signal convergence, a published daily Intelligence Article summarizing the most significant development detected overnight, and The Index — a live public ranking of the most influential entities in the world at any given moment, freely accessible at [leaderscartel.com/the-index](http://leaderscartel.com/the-index).

Leaders Cartel is offered in four tiers: a 3-day free trial, Analyst at \$29/month, Pro at \$49/month, and Elite at \$149/month. A free public tier provides access to the daily intelligence article, The Index rankings, and a daily email digest.

The platform is accessible today at [www.leaderscartel.com](http://www.leaderscartel.com)
