

NextGen-Industries Now Available in the Microsoft Marketplace

Microsoft customers worldwide can now discover and deploy Statistical Process Control for Microsoft Power BI through Microsoft Marketplace

Cologne / Köln, North Rhine-Westphalia May 1, 2026 ([Issuewire.com](https://www.issuewire.com)) -

NextGen-Industries today announced the availability of **Statistical Process Control** for Microsoft Power BI in the Microsoft Marketplace, the unified online destination for customers to buy trusted cloud solutions, AI apps, and agents to meet their business needs. **NextGen-Industries** customers can now

discover and deploy trusted solutions through Microsoft Marketplace, with smooth integration and streamlined management across Microsoft Azure and other Microsoft products.

NextGen-Industries specializes in advanced process analytics and digital manufacturing solutions, with a strong focus on Six Sigma methodologies and statistical process control (SPC). The Statistical Process Control (SPC) visual brings powerful statistical process control capabilities directly into Power BI, enabling organizations to monitor, control, and improve processes using statistical probability theory and Six Sigma principles. The visual supports Cp(k)/Pp(k) calculations according to ISO 22514, integrates multiple SPC charts, and provides real-time/online monitoring capabilities. Customers benefit from improved process stability, early detection of variation, and actionable insights that help maintain high-quality output while driving continuous improvement aligned with Six Sigma DMAIC cycles.

“By launching our SPC visual in the Microsoft Marketplace, we’re empowering organizations to elevate real-time, data-driven quality control. We’re committed to making advanced SPC both intuitive and fully integrated into Power BI, helping teams act with greater speed and confidence,” said Alexander Leanhardt, Sales & Marketing Manager NextGen-Industries.

“We’re pleased to welcome NextGen-Industries’ Statistical Process Control visual for Microsoft Power BI to Microsoft Marketplace,” said Cyril Belikoff, vice president, Microsoft Azure Product Marketing. “Marketplace connects trusted solutions from global partners with customers worldwide, making it easy to find and deploy apps that work seamlessly with Microsoft products.”

Microsoft Marketplace is a single destination to find, try, and buy trusted cloud solutions, AI apps, and agents to meet your business objectives. Choose from a growing collection of solutions tailored to your unique needs, available both in Marketplace and directly within Microsoft products.
