Every Day Like Brand New

Great Neck, New York Apr 2, 2026 ([IssueWire.com](https://www.IssueWire.com)) - [Onyx Coating](#), a global leader in advanced automotive protection technologies and a trusted PPF supplier to professional detailers, today announced the worldwide launch of its latest innovation: [Vunyx® Smart Shield Films](#) a new two-tier paint protection film (PPF) family designed for installers, car workshops, detailers, panel beaters, and

distributors seeking reliable, high-clarity, value-driven protection solutions.

The new lineup includes Vunyx® Smart Shield 130 Film and Vunyx® Smart Shield 150 Film, both engineered to deliver premium gloss, installer-friendly handling, and durable heat-activated self-healing performance, positioning Onyx Coating as a trusted choice for professional installers worldwide who need high-quality PPF and [bulk PPF rolls](#).

A new generation of protection for car care installers & detailers

Manufactured with high-quality TPU resin and a non-yellowing adhesive system, Vunyx® Smart Shield Films give automotive professionals dependable clarity and flexibility while maintaining competitive pricing for value-driven PPF service packages. These films were built for car workshops, garages, auto detailers, smash repairers, and panel beaters seeking workshop-grade protection films that deliver consistent, repeatable results.

“Our partners are at the center of everything we do. With Vunyx® Smart Shield Films, we’re giving installers more choice, more capability, and more ways to elevate their service packages.”

– Ahmed Madi, International Sales Director, Onyx Coating

Vunyx® Smart Shield 150 film: Strong performance at an economical level

The Smart Shield 150 film provides durable, everyday protection with a robust 150 µm TPU structure, high gloss, and heat self-healing performance, ideal for installers who need reliable, installer-friendly PPF with excellent value.

Highlights

- Heat self-healing capability for light surface marks
- Non-yellowing transparent adhesive
- 150 µm flexible TPU base film
- Gloss-enhancing surface finish
- Matte release liner for smooth installation

Vunyx® Smart Shield 130 film: Optimized value and clarity

Designed with excellent optical clarity and ease of installation, the Smart Shield 130 film is perfect for professionals seeking an economical product that still offers high clarity PPF film performance with heat-activated self-healing.

Highlights

- Heat self-healing capability
- High-clarity TPU construction
- 125µm flexible TPU base film
- Non-yellowing, removable polyacrylate adhesive
- High-gloss finish

“These films were engineered with clarity, gloss, and practicality in mind. Whether an installer needs top-tier performance or an economical solution, the Vunyx® line delivers quality they can trust.”

– Ahmed Madi

Supporting automotive professionals worldwide

The launch of Vunyx® Smart Shield Films strengthens Onyx Coating's position as a leading global [automotive detailing product supplier](#) and paint protection film manufacturer, offering scalable solutions for installers, body shops, and distributors worldwide.

By expanding PPF options that balance performance, cost, and installer-friendly usability, Onyx Coating empowers partners to:

- expand service packages
- increase customer retention
- stay competitive in fast-growing PPF markets
- source PPF wholesale with consistent technical support

This product line complements Onyx Coating's broader portfolio of professional automotive coating solutions, including its globally recognized 10H and N1 ceramic coatings.

About Onyx Coating

Onyx Coating is a global innovator in high-performance automotive protection, supplying professional-grade ceramic coating, premium PPF, and advanced window films to more than 70 countries. With its strong international network of installers and distributors, Onyx Coating delivers world-class products backed by technical training, installer support programs, and continuous product innovation.

Core values include integrity, excellence, innovation, teamwork, customer focus, and sustainability.

Limited-time spring offer

To support partners during the global rollout of Vunyx® Smart Shield Films this spring, Onyx Coating is offering a 20% discount on the first order of Vunyx® Smart Shield PPF and selected professional product lines for both existing and new car care installers.

This exclusive spring promotion is available from April 1 to April 30, 2026, allowing installers and auto detailers to experience the performance and value of the Vunyx® Smart Shield range while increasing margins and expanding their service offerings.

Join the Onyx Coating network
