

## Pericent Launches docEdge v3.2 to Transform Document Management for NBFCs and Manufacturing

Pericent BPM And DMS Software (P) Limited has launched docEdge v3.2, an advanced document management system designed for NBFCs and manufacturing enterprises.

Jaipur, Rajasthan May 1, 2026 ([Issuewire.com](http://Issuewire.com)) - [Pericent BPM And DMS Software \(P\) Limited](http://PericentBPMAndDMSSoftware.com), today announced the launch of **docEdge v3.2**, the latest version of its advanced Document Management System (DMS), purpose-built to address the complex document workflows of Non-Banking Financial Companies (NBFCs) and manufacturing enterprises. The new release introduces enhanced automation, improved compliance capabilities, and intelligent document handling to help organizations streamline operations and boost productivity.

In today's data-driven business environment, managing large volumes of documents efficiently is critical, especially for industries like NBFCs and manufacturing, where regulatory compliance, accuracy, and speed are paramount. With docEdge v3.2, Pericent BPM and DMS Software (P) Limited aims to bridge the gap between traditional document handling and modern digital transformation needs.

### Key Highlights of docEdge v3.2:

- **Advanced Workflow Automation:** docEdge v3.2 introduces smarter workflow automation, enabling businesses to digitize and streamline document approval processes, reduce manual intervention, and improve turnaround time.
- **Enhanced Compliance & Audit Readiness:** Built with industry-specific compliance requirements in mind, the system ensures secure document storage, easy retrieval, and audit trails—critical for NBFCs dealing with financial regulations and manufacturing firms managing operational documentation.
- **AI-Powered Document Classification:** The upgraded platform leverages intelligent algorithms to automatically classify, tag, and organize documents, significantly reducing human

error and improving search efficiency.

- **Robust Security Framework:** With multi-layered security protocols, role-based access controls, and encryption, docEdge v3.2 ensures that sensitive data remains protected at all times.
- **Seamless Integration Capabilities:** The system integrates effortlessly with existing enterprise software such as ERP and CRM systems, making it adaptable for organizations without disrupting current workflows.
- **Scalable for Growing Businesses:** Whether a mid-sized NBFC or a large-scale manufacturing enterprise, docEdge v3.2 is designed to scale with business growth and evolving document management needs.

Speaking on the launch, Sanjay Sharma, Managing Director of Pericent BPM and DMS Software (P) Limited, said,

“docEdge v3.2 is a significant step forward in our mission to empower businesses with smarter, more efficient document management solutions. We understand the unique challenges faced by NBFCs and manufacturing companies, and this version is tailored to simplify compliance, enhance productivity, and support digital transformation journeys.”

The platform also features a user-friendly interface, making adoption easy across teams, while reducing training time and improving user engagement. By centralizing document management, organizations can eliminate redundancies, reduce operational costs, and gain better control over their data.

## Driving Digital Transformation Across Industries

With increasing pressure on NBFCs to maintain regulatory compliance and on manufacturers to optimize operations, the need for a reliable document management system has never been greater. docEdge v3.2 empowers organizations to transition from paper-based processes to a fully digital ecosystem, enabling faster decision-making and improved operational efficiency.

Pericent BPM and DMS Software (P) Limited continues to focus on innovation and customer-centric solutions, positioning docEdge as a key enabler in the digital transformation landscape.

## Availability

docEdge v3.2 is now available for deployment. Organizations can [request a demo](#) or learn more by contacting us directly.
