

Premium Auto Solutions Celebrates 350+ Five-Star Reviews Milestone in Montrose, CO

Montrose-based auto detailing and paint protection company Premium Auto Solutions has reached a significant customer satisfaction milestone, accumulating more than 350 five-star reviews from clients across the Western Slope region of Colorado.

Montrose, Colorado May 6, 2026 ([Issuewire.com](https://www.Issuewire.com)) - [Premium Auto Solutions](#), a professional automotive detailing and paint protection firm based in Montrose, Colorado, has announced that it has surpassed 350 five-star reviews on Google. The milestone reflects the company's consistent track record of delivering quality results to vehicle owners across Montrose and its surrounding communities, including Delta, Ouray, Ridgway, Telluride, and Grand Junction.

The achievement comes as the company continues to expand its service offerings and geographic reach, now covering a 60-mile radius from its Montrose location at 95 Merchant Drive, Suite C. Services provided by Premium Auto Solutions include ceramic coating, paint correction, paint protection film, window tinting, and both in-house and mobile detailing.

A Milestone Rooted in Consistency

Reaching 350 five-star reviews is not something that happens by accident. For a local business operating in a competitive industry, this kind of public feedback reflects the day-to-day decisions made

by every member of the team. The number represents real customers, real vehicles, and real experiences.

According to the company, the majority of its reviews highlight punctuality, attention to detail, and the quality of products used during service. [Premium Auto Solutions](#) uses professional-grade materials for all services, including ceramic coatings and paint protection films designed to shield vehicle exteriors from environmental damage, road debris, and UV exposure.

"Every review we receive is a reflection of the standard we hold ourselves to," said the owner of Premium Auto Solutions. "We do not take shortcuts, and we do not treat any job as routine. Whether it is a basic interior detail or a full paint protection film installation, the expectation is the same every time."

Serving Montrose and the Western Slope

Premium Auto Solutions first established itself as a go-to destination for vehicle owners in Montrose who were seeking professional-grade care beyond a standard car wash. Over time, the company introduced [mobile detailing services](#) that brought its offerings directly to customers at their homes or workplaces, removing the need for clients to travel to a shop.

This mobile capability allowed Premium Auto Solutions to extend its reach to communities across the Western Slope that previously had limited access to specialized automotive detailing and protection services. The company now regularly serves clients in Ouray, Delta, Grand Junction, and Telluride, among other areas within its 60-mile service radius.

The expansion of service areas has contributed directly to the growth in customer reviews, as more vehicle owners across the region have had the opportunity to experience the company's services firsthand.

What the Reviews Reflect

Online reviews have become one of the primary ways that consumers evaluate local service businesses. For automotive service providers, where the results are highly visible and the investment can be significant, customer trust plays a central role in business decisions.

Premium Auto Solutions has maintained a consistent rating on Google, with reviewers frequently noting the professionalism of the technicians, the quality of the finished results, and the responsiveness of the team when questions or concerns arise. The company attributes this feedback to a service model that prioritizes transparency and communication at every stage of the process.

The company's technicians are trained in multiple service disciplines, allowing them to assess each vehicle individually and recommend appropriate treatments based on its condition, usage, and the customer's goals. This approach has been cited by several reviewers as a distinguishing factor compared to other automotive service providers in the region.

Looking Ahead

Premium Auto Solutions has indicated that it plans to continue expanding its service offerings and refining its operational processes in the months ahead. While specific future announcements have not yet been made public, the company has confirmed its commitment to maintaining the service quality that has driven its reputation to this point.

Vehicle owners in Montrose and across the Western Slope who are interested in learning more about available services or scheduling an appointment can visit the company's website at <https://www.premiumautosolution.com/> or contact the team directly by phone.
