

Reborn Skin & Hair Clinic Expands Advanced Laser Hair Removal in Banjara Hills, Hyderabad

Hyderabad, Telangana Apr 9, 2026 (IssueWire.com) - Reborn Skin & Hair Clinic has strengthened its presence in [Banjara Hills](#) with the introduction of advanced [laser hair removal treatments](#), offering long-term hair reduction solutions through dermatologist-supervised procedures.

Located in the heart of Banjara Hills, the clinic provides modern laser technology designed to deliver

safe, precise, and effective hair removal for both men and women. The treatment is positioned as a long-term alternative to conventional methods such as shaving and waxing, addressing increasing demand for low-maintenance grooming solutions.

The clinic utilizes **US-FDA-approved laser systems**, including diode, Nd:YAG, and alexandrite technologies, tailored for different skin types and hair textures. These technologies enable targeted treatment across multiple areas such as the face, underarms, arms, legs, back, chest, and bikini line, supporting both localized and full-body hair reduction needs.

Reborn Skin & Hair Clinic emphasizes customized treatment planning, where dermatologists assess individual skin profiles, hair density, and growth patterns before recommending a structured session plan. The procedure typically requires multiple sessions to achieve optimal long-term hair reduction outcomes.

The Banjara Hills clinic serves a wide catchment area across Hyderabad, including **Jubilee Hills, Madhapur, Somajiguda, Gachibowli, HITEC City, and Punjagutta**, making it accessible to a large urban population seeking advanced aesthetic treatments.

According to the clinic, laser hair removal sessions are priced transparently, starting from approximately ₹2,999 per session, depending on the treatment area, number of sessions, and individual skin and hair characteristics.

Reborn Skin & Hair Clinic operates with a team of experienced dermatologists and aesthetic specialists, offering a range of skin and hair treatments alongside laser procedures. The clinic positions itself as a comprehensive dermatology and aesthetic care provider in Hyderabad, combining medical expertise with advanced technology.

With the expansion of its laser hair removal services in Banjara Hills, Reborn Skin & Hair Clinic aims to address the growing preference for clinically supervised, long-term hair reduction solutions in urban India.
