

Repipe Home Hero Expands Full-Service Plumbing Across San Diego County

Family-owned, C-36 licensed plumber brings 250+ five-star reviews and a full menu of residential plumbing services to homeowners from all around San Diego County like La Jolla, Carmel Valley, 4S Ranch, Carlsbad, and many more

San Diego, California Apr 29, 2026 ([IssueWire.com](https://www.IssueWire.com)) - Repipe Home Hero, a C-36 licensed residential plumbing company based in San Diego County, today announced the continued expansion of its full-service plumbing division to serve homeowners across the region. With more than [250 five-star Google reviews](#) and a decade of hands-on field experience, the company now offers a comprehensive range of plumbing services far beyond its signature whole-house repipe work.

Founded and operated by Stefan, Repipe Home Hero built its reputation on precision copper and PEX repiping. As San Diego homeowners face aging infrastructure, hard water, and rising water quality concerns, Stefan and his team expanded to meet demand for everyday plumbing services all around San Diego County such as La Jolla, Carmel Valley, 4S Ranch, Oceanside, Carlsbad, and many more.

"We started as repipe specialists, and we still do the best repipe work in San Diego. But our customers kept asking us to handle everything else, too. So we did."

Stefan, Owner — Repipe Home Hero

Plumbing Services

The company now provides a full lineup of residential plumbing services designed to keep San Diego homes running safely and efficiently.

Water Heater Installation

Gas, electric, and tankless water heater installation and replacement. Stefan's team handles permits and code compliance throughout San Diego County, helping homeowners in Rancho Bernardo, Carmel Valley, Carlsbad, and surrounding areas upgrade to high-efficiency tankless systems or replace failing tank-style units quickly.

Whole-House Water Filtration

San Diego's water supply carries high mineral content and chlorine levels that affect taste and shorten pipe life. Repipe Home Hero installs whole-house filter systems and reverse osmosis units that address both issues at the source, extending the life of fixtures and improving daily water quality for families.

Pipe Leak Repair

Stefan's team responds quickly to leaks in walls, under slabs, and behind fixtures, using accurate detection methods to minimize disruption before completing permanent repairs. Emergency calls receive priority scheduling throughout San Diego County.

Emergency Plumbing

Around-the-clock emergency service for pipe bursts, sudden leaks, and plumbing failures. Fast response to homes across the county means less water damage and faster recovery for homeowners facing urgent situations.

Faucet, Shower Valve, and Fixture Installation

Professional installation of faucets, shower valves, toilets, and sinks. Repipe Home Hero's team handles everything from simple fixture swaps to full bathroom upgrades, ensuring proper fit, code compliance, and leak-free connections.

Slab Leak Repair

Slab leaks cause significant structural and water damage when left unaddressed. Stefan and the team locate and repair slab leaks efficiently, limiting disruption to floors and walls while delivering permanent solutions.

Pressure Regulator Installation

High water pressure accelerates pipe wear and damages fixtures. Repipe Home Hero installs and calibrates pressure regulators that bring water pressure into the correct operating range, protecting the plumbing system long-term.

Moen Flo Smart Water Monitor Installation

Repipe Home Hero installs the Moen Flo smart water monitor, a whole-home device that detects leaks, monitors water usage, and automatically shuts off the water supply when an abnormal flow is detected. Stefan's team handles the full installation and setup, giving homeowners in San Diego County real-time visibility into their plumbing system and protection against costly water damage.

Copper and PEX Whole-House Repiping

The company's founding specialty. Stefan personally oversees whole-house repipe projects, replacing outdated galvanized or failing copper pipes with new copper or PEX systems. Every repipe comes with a clear warranty and a clean job site on completion.

Credentials and Commitment

Repipe Home Hero holds California Contractor License #1075463 and carries full insurance coverage. Stefan's approach centers on transparent estimates, clean job sites, and work backed by a clear warranty. Every technician on the team is trained and vetted, reflecting the family-owned standard of accountability Stefan built from day one.

San Diego homeowners can request a free estimate online at repipehero.com, explore the full service list, and read verified customer reviews. The company also maintains an active Google Business Profile with directions, hours, and direct contact.
