Founded in 2025 by Anderson da Silva and Alex Bakalbasis, the company is focused on delivering consistent, high-quality cleaning solutions tailored to

modern commercial environments.

Reset Cleaning Crew was created to address common frustrations businesses face with cleaning providers, including inconsistent service, poor communication, and missed tasks. The company operates with a structured approach, using detailed checklists, scheduled services, and dedicated cleaning teams to ensure every site is maintained to a consistent standard.

The company specialises in recurring commercial cleaning services for a wide range of industries. These include [office cleaning](#), strata and common area maintenance, warehouse and industrial cleaning, real estate and display suite cleaning, educational facility cleaning, and gym and fitness centre cleaning. One of the key advantages of Reset Cleaning Crew is its flexibility. The team offers after-hours and early morning cleaning options, allowing businesses to operate without disruption. This is particularly beneficial for offices, commercial buildings, and high-traffic environments where cleaning during business hours is not practical.

Operating as a service-area business, Reset Cleaning Crew services multiple Brisbane suburbs including [Brisbane CBD](#), Fortitude Valley, South Brisbane, Newstead, Bowen Hills, Milton, Eagle Farm, Spring Hill, Toowong, Chermside, Capalaba, Rocklea, Mount Gravatt, and Eight Mile Plains.

With a strong focus on clear communication, reliable attendance, and consistent service delivery, Reset Cleaning Crew aims to become a trusted long-term partner for businesses across Brisbane.

“Our goal is simple,” said a company spokesperson. “We want businesses to stop worrying about cleaning altogether. When our team is on site, everything should just work — consistently and without follow-up.”
