

Sikka Metals Pvt. Ltd. Emerges as a Trusted Steel Supplier in India, Offering Premium Grades from C-45 to Corten Steel

Faridabad-based steel powerhouse delivers high-performance plates including Boiler Quality, Abrex, SAIL Hard, SAILMA, and IRSM 41-97 Corten Steel — serving industries across India with reliability and competitive pricing.

Sikka
Metals Pvt.Ltd.

Faridabad, Haryana Apr 9, 2026 ([Issuewire.com](https://www.issuewire.com)) - Sikka Metals Pvt. Ltd., headquartered at the prominent Loha Mandi industrial hub of Ballabhgarh, Faridabad, has firmly established itself as one of the most dependable steel suppliers in India. Specializing in a comprehensive range of high-

performance steel plates, the company has built a strong reputation for quality, consistency, and on-time delivery — catering to sectors including construction, infrastructure, heavy engineering, pressure vessels, and defense fabrication.

A Complete Portfolio of High-Grade Steel Plates

Sikka Metals Pvt. Ltd. offers an extensive product lineup designed to meet the diverse demands of modern industrial applications. Their flagship offerings include:

- [C-45/C-50 High Carbon Steel Plates](#): Ideal for gears, shafts, and wear-resistant applications requiring high tensile strength and hardness.
- Boiler Quality Plates (SA516-GR70 / IS 2002): Pressure vessel and boiler-grade plates manufactured to meet stringent international standards, ensuring safety and performance under high-temperature and high-pressure environments.
- [Abrex Plates](#): Advanced abrasion-resistant steel plates suited for mining equipment, dump truck bodies, chutes, and heavy earth-moving machinery.
- SAIL Hard Plates (200 BHN): High Brinell Hardness Number plates offering exceptional wear resistance, particularly valued in the mining, aggregate, and cement industries.
- [SAILMA-350 / SAILMA-450 High Manganese Plates](#): High manganese micro-alloyed structural steel plates known for their toughness, weldability, and use in bridges, heavy structures, and fabrication work.
- Corten Steel IRSM 41-97: Weathering steel plates widely used in railway wagons, bridge structures, and outdoor architectural elements due to their superior corrosion resistance and self-protecting oxide layer.

Commitment to Quality and Customer Satisfaction

What sets Sikka Metals Pvt. Ltd. apart in the competitive Indian steel market is its unwavering commitment to quality assurance. Every product is sourced from reputable mills and undergoes strict quality checks before dispatch. The company maintains adequate stock levels to ensure prompt delivery, minimizing lead times for both small and bulk orders.

"Our goal has always been to be more than just a [steel supplier](#) — we aim to be a trusted partner for our clients. Whether a customer needs a few plates for a fabrication job or a bulk order for a large-scale infrastructure project, we ensure they receive the right grade, right quantity, and right quality — every time." — Spokesperson, Sikka Metals Pvt. Ltd.

Strategically Located for Pan-India Supply

Situated at Plot No. 588, Sector-59, Loha Mandi, Ballabgarh — one of North India's most active steel trading zones — Sikka Metals Pvt. Ltd. enjoys excellent logistics connectivity via road and rail networks. This strategic location enables efficient and cost-effective delivery of steel plates across Delhi NCR, Haryana, Rajasthan, UP, Punjab, and beyond, making them a preferred steel supplier across India for fabricators, contractors, and OEMs alike.

Serving a Wide Range of Industries

Sikka Metals Pvt. Ltd. caters to an extensive list of industries that demand precision-grade steel plates:

- Pressure Vessel & Boiler Manufacturing

- Heavy Engineering & Fabrication
- Mining & Mineral Processing
- Railways & Defense
- Construction & Infrastructure
- Cement & Aggregate Plants
- Shipbuilding & Offshore Structures

About Sikka Metals Pvt. Ltd.

Sikka Metals Pvt. Ltd. is a leading steel plates supplier in India, operating from the heart of the Loha Mandi industrial corridor in Ballabhgarh, Faridabad. With a wide product range spanning high carbon, boiler quality, abrasion-resistant, high-manganese, and weathering steel grades, the company has served hundreds of clients across sectors. Combining technical expertise, competitive pricing, and logistics efficiency, Sikka Metals Pvt. Ltd. continues to grow as a trusted name in the Indian steel trade.
