Coach Patience Gabriel
Founder. CEO. Visionary.

Las Vegas, Nevada Apr 3, 2026 ([IssueWire.com](https://www.IssueWire.com)) - As Women's History Month comes to a close, SLC Collective is making a definitive statement about the future of female entrepreneurship and spiritual stewardship. Today, on the final day of this historic month, SLC Collective officially launches its faith-based platform, slccollective.me, introducing the "**Soft Luxury CEO.**"

This initiative is designed for high-performing women of faith who seek to honor their divine calling while maintaining a lifestyle of biblical peace, intentionality, and refinement. By launching on the final day of Women's History Month, SLC Collective honors the women who paved the way while ushering in a new era where success is measured by grace, not just grind.

"We are closing Women's History Month by opening a door to a more soul-aligned way of leading," says the Coach Patience Gabriel-founder of SLC Collective. *"The Soft Luxury CEO movement is about walking in the abundance God promised. We are making history by proving that a woman's greatest influence comes from a place of rest and spiritual alignment, rather than worldly exhaustion."*

A Historic, Faith-Filled Shift:

- **The Soft Luxury Framework:** A strategic pivot away from "hustle culture," rooted in the belief that we are called to be stewards, not slaves, to our businesses.
- **Grace-Led Leadership:** Mentorship that integrates prayerful intentionality with high-level systems to create "soft" operations that allow for family, rest, and worship.
- **A New Legacy:** By launching on March 31st, SLC Collective marks a transition point—moving from the historical struggle for a seat at the table to a future of leading with the authority and peace found in faith.

SLC Collective's digital platform is now live, offering resources for the modern woman of faith who is ready to claim her title as a Soft Luxury CEO.

About SLC Collective: SLC Collective is a faith-based consultancy and lifestyle brand dedicated to the Soft Luxury CEO movement. Launched on the final day of Women's History Month, the collective serves as a bridge between high-level business strategy and a life of spiritual refinement. It is the destination for women leaders ready to make history through grace and excellence.
