Fort Worth, Texas Apr 2, 2026 (IssueWire.com) - Unity Unlimited, Inc - the producers of Opal’s Walk for Freedom, and remoting.work have partnered on a bold employment initiative, **Unity Works**, whose mission is to transform the way small businesses grow, collaborate, and circulate wealth within the American economy.

Unity Works is designed to enable small business owners to outsource work within a trusted network of vetted service providers, creating sustainable wealth-building opportunities while strengthening local and national economic ecosystems. By fostering strategic connections between businesses and professional service partners via remoting.work, the initiative ensures that resources remain circulating within communities—fueling growth.

At the core of Unity Works is a collaborative framework that positions Chambers of Commerce as central economic drivers. Chambers are empowered to generate income while enhancing the value they provide to their business communities. This innovative model transforms Chambers from traditional networking hubs into dynamic engines of measurable economic impact.

“Unity Works represents a shift in how we think about outsourcing,” said Dione Sims, Executive Director of Unity Unlimited, Inc. “We want to set conditions for wealth generation in our communities, helping one thousand small businesses to collectively make a million dollars by the end of this year .”

Business leaders, Chambers of Commerce, and Entrepreneurs are invited to a webinar to learn more and join the movement toward a stronger, more unified economy. Register [here](#) for free.

About Unity Unlimited, Inc.

[Unity Unlimited, Inc.](#) is a non-profit organization that produces programs that help communities overcome racial, cultural, and economic division. The programs they produce provide educational activities and resources to people to foster unity and harmony regardless of race, culture, or denomination through initiatives such as Juneteenth Strong, a month-long event series celebrating freedom along with Dr. Opal Lee.
